## Marshall Reports On Issues Faced At Moscow Parley

Sharply Worded Reproaches To Russia For Parley Failure Are Presented

### SAYS STALIN HOLDS COMPROMISE HOPES

By JOHN A. REICHMANN  
(U. S. Staff Correspondent)

WASHINGTON, April 29.—Secretary of State George C. Marshall today was believed planning possible United States action to maintain world order following his sharply worded reproaches to Russia for failure of the Moscow conference of foreign ministers.

Marshall's criticism of Moscow's leaders was contained in a report to the American people in which he threw directly at the Soviets sharp charges on their attitude to the European peace treaties.

**Soviet May Compromise**  
In his 30-minute radio report Marshall revealed that Russian Generalissimo Stalin indicated during a 90 minute conference at the Kremlin a desire to compromise major differences between the big powers.

But the secretary gave notice last night that the United States would not compromise through exhaustion on these vital differences.

Marshall said that Stalin during the conference referred to the Moscow meeting to draft the peace

## Pa Newc Observes

In a little more than a week will arrive the second anniversary of the end of World War II in Europe.

A pair of wrens which come regularly during past summers to the Moore homestead on Glenmore boulevard returned to take up summer residence.

Some peach trees around the county seem to be well set in bloom and probably not nipped by the freezes of the past week, according to some reports made to Pa Newc.

One of the prettiest foundation plantings to be seen on the north hill and the present time is one around a house just around the corner from Highland avenue on Wallace where against a background of evergreens set in a tidy mulch of peat moss there are pink, blue, and yellow hyacinths in bloom.

Residents of city were craning their necks on Monday evening to catch the sight of overhead planes. It was learned that the planes were those of student pilots of the New Castle Airport who were getting their first taste of night flying. The planes were in the air until almost midnight.

Pennsylvania Power company officials are anxious to obtain photographs of ancient power plants here which were located where the Johnson-Bronze office and Cudahy Packing plant are located; another in the rear of the Lawrence Auto and a third in South street where the former power company line shop was located.

Sycamore Way is dotted with depressions because of vehicular travel. Councilman James Gibson reported today it will be patched as soon as the city procures its supply of "black-top" for the year. A depression at North and North Mercer streets was repaired today and another hole at North Beaver and North street is to be fixed.

Pole setting crews of the Pennsylvania Power company are working on the relocation of poles along the New Wilmington and Cudahy Route 422 in Sampson street. The relocation is being accomplished without interruption to electric service.

## Trans-Canada Plane In Crash With 15 Aboard

(BULLETIN)

VANCOUVER, British Columbia, April 29.—(INS)—A Trans-Canada airliner, with 15 persons aboard, was reported early today to have crashed on the eastern side of Vancouver island during the night.

Reports from the island said a fire was observed in the area where the big plane plunged to earth.

Officials of the Trans-Canada Airways company said there were 12 passengers and three crew members aboard the airliner when it took off from Lethbridge, Alberta, at 9:27 p. m. (PDT) yesterday.

The westbound plane was due to land at Vancouver's Sea Island airport at 11:16 p. m. (PDT). Three minutes before the crash was scheduled to arrive it radioed the airport.

The message said the plane was flying at an altitude of 7,000 feet on the west leg of the Vancouver radio range.

No further word was received from the plane, which apparently overshot its mark, crossed the strait west of Vancouver, which is on the British Columbia mainland, and crashed on Vancouver island.

## Young Widow Kills Would-Be-Kidnaper She Informs Police

Young California Widow Accosted By Man In Garage While Parking Car

LOS ANGELES, April 29.—(INS)—Mrs. Minerva Knight, 18, today shot and killed a man who, she told police, attempted to kidnap her.

From papers on his person police identified the man as Thomas Housos, 24, a transient. Police said he carried a Screen Actors Guild card and a stable workers card from Narragansett racetrack.

Mrs. Knight, whose husband was killed in the Merchant Marine in the war, told police she was parking her car in her garage when the man stepped from the shadows. She said he ordered her to remain in the car and, climbing in, began to back the car out of the garage. Mrs. Knight said she drew a revolver she kept in the auto and fired two shots into his head and one into his body.

## BIDAULT RETURNS TO PARIS TODAY

PARIS, April 29.—(INS)—French Foreign Minister Georges Bidault returned to Paris today from the Moscow conference and expressed confidence the Big Four will "reach final agreement."

He added, "but we must act very quickly."

Bidault said, "we did our best at Moscow. France's interests were respected because they were mixed with justice. We also brought some coal."

## Bus Tieup In Akron At End

AKRON, O., April 29.—(INS)—Bus drivers and machinists returned to their jobs today in Akron to end a one-day paralysis of the city's public transportation system.

William M. Muldoon, Akron transportation system vice president, reported service was "normal" this morning following acceptance by 142 members of the Independent International Association of Machinists of a seven-cent hourly pay raise.

## New Wage Offer In Phone Strike Is Now Awaited

By PHILLIPS J. PECK  
(U. S. Staff Correspondent)

WASHINGTON, April 29.—(INS)—A new wage offer from the Bell system was awaited today as the next step toward a negotiated settlement of the 23-day-old nationwide telephone strike.

Washington officials remained confident that the walkout of 340,000 employees of the vast AT&T communications network is near its end.

The \$2.50 weekly wage increase proposed by the Northwestern Bell Telephone company was rejected by striking affiliates of the National Federation of Telephone Workers, but it was regarded as the "starting point" for intensive bargaining.

New wage offers elsewhere in the series of local negotiations going on throughout the country are expected to narrow the differences between Telephone labor and management.

Officials in Washington believed the ultimate settlement will provide for a wage boost of between \$3 and \$6 weekly.

Three sets of negotiations are going on in the capital under the auspices of the Labor department. But the real "break" in the dispute is expected to come outside the capital in one of the parleys in Atlanta, Philadelphia, New York, Detroit, Milwaukee, Chicago or elsewhere.

One of the Bell companies is expected to raise the \$2.50 offer put forward by Northwestern at St. Paul, Minn.

Negotiations in Washington involve AT&T's Long Lines division, the Southwestern Bell Telephone company, and Western Electric, AT&T's manufacturing subsidiary.

The key talks in the capital are those on long-lines.

## Britain Promises To Give Position On Palestine Now

By PIERRE J. HUSS  
(U. S. Staff Correspondent)

FLUSHING MEADOWS, N. Y., April 29.—Britain promised today to disclose her position on Palestine to the United Nations special assembly after being challenged by India in the inaugural meeting of the 14-nation general committee.

The powerful group consists of seven vice-presidents, the chairman of six standing committees and is presided over by Assembly President Dr. Oswaldo Aranha of Brazil. It met to consider whether the special session should limit itself to appointing a fact-finding commission or engage in general debate on Palestine.

FLUSHING MEADOWS, N. Y., April 29.—The United States and Britain today face a vital decision on Palestine as Arab strength threatens to crack wide open the restricted agenda of the special U. N. assembly.

## Proper Driving Will Be Taught

## Dual-Control Auto Is Provided For Driving Instruction Program Here

Instruction in the proper driving of an automobile is now a part of the curriculum of the senior high school. A dual-control Pontiac, the gift of the Pontiac Sales Company and the New Castle Motor Club has been made to the senior high school and driving instruction will start immediately.

The presentation of the car to the school system, for training purposes is a part of a national program of the American Automobile Association to bring greater safety to the highways. In a relatively few cities in the nation dual control cars have been presented to the schools for training purposes. New Castle is one of the few.

**Named Instructors**  
Dr. G. Kepler Mills and Clark McClelland of the school system have been named as instructors in the

## Oppose Move To Extend U.S. Aid To Soviet Countries

## House Prepares To Vote On Proposal To Deny Aid To Soviet Countries

By RAYMOND WILCOVE  
(U. S. Staff Correspondent)

WASHINGTON, April 29.—Opposition to Russia punctuated the debate over the 350 million dollar six-nation relief bill as the House prepared to vote today on a proposal to deny aid to Soviet-dominated countries.

Supporters of the move, which is aimed at Poland and Hungary, declared that the extension of relief to nations "dominated" by the Soviet government was inconsistent with President Truman's 400 million dollar "stop communism" program for Greece and Turkey.

The relief bill is designed to furnish assistance to war-devastated countries in the wake of the termination of UNRRA activities March 31. The State department

## Sen. Taft Assails Truman's Stand On Tax Program

WASHINGTON, April 29.—(INS)—Republican determination to push through a GOP tax reduction bill was reflected today in a charge by Sen. Taft (R) Ohio, that President Truman's price-wage statements all seem aimed at blocking the Republican tax program.

**Hearing Nears Close**  
Taft's shot at the White House was made as the senate finance committee, of which he is ranking GOP member, neared the close of public hearings on the house-approved tax relief bill.

B. A. Javits, vice president and general counsel of the Investors League of New York, and Arnold J. Wilson of LaSalle, Ill., vice-president of the Illinois Manufacturers' Association, were among today's witnesses. Chairman Millikin (R) Col., hoped to complete hearings tomorrow and have the measure ready for the senate by Monday.

**No Remedy By Truman**  
Taft, GOP policy chairman in the senate, said that President Truman "proposes no real remedy for high prices." He accused the administration of failing to bring its fiscal figures up to date for fear it will show a surplus to justify tax reductions. Taft said:

"Treasury estimates in January 1947 for the fiscal year 1947 were nearly four billion dollars wrong. The estimate submitted in January for the fiscal year 1948 are evidently also wrong, but Mr. Snyder (treasury secretary) is refusing to bring them up to date for fear they would show a surplus that would justify a tax cut by a Republican congress."

## ORDER HALT TO MASS PICKETING

DENVER, April 29.—(INS)—Telephone workers in Colorado today were under an order from the Colorado State Industrial Commission to halt mass picketing.

The commission issued the order under Colorado's Labor "Peace" Act. It followed a day in which nearly 1,000 telephone workers staged demonstrations in front of three telephone company buildings in Denver.

## President Renews Cut Prices Appeal

By WILLIAM UMSTEAD  
(U. S. Staff Correspondent)

WASHINGTON, April 29.—President Truman today renewed his appeal for businessmen to cut prices "wherever possible at all levels."

The president reiterated his plea for price reductions in a message to the 35th annual meeting of the U. S. Chamber of Commerce. The message was read to 2,500 businessmen by Presidential Assistant John R. Steelman.

**Grave Responsibility**  
Mr. Truman declared that "no community leaders have a graver responsibility at this moment, or a

greater opportunity for service to their country, than our businessmen." He said:

"A pressing task of all businessmen today is to reduce prices wherever possible at all levels while steadily increasing production."

"By careful planning, by elimination of wasteful methods and practices, by expanding facilities where needed, and by increasing productivity, businessmen can greatly help in dispelling the inflationary cloud now hanging over us."

The president pointed out that the United States "has long been known for its success in the mass

## Marshall's Report Is Generally Endorsed

WASHINGTON, April 29.—(INS)—Republicans and Democrats in both houses of Congress today generally endorsed Secretary of State Marshall's report to the nation on the Moscow conference.

Senate Majority Leader White said he was "most favorably impressed," and added that Marshall's statement that the issues have been clarified "is a long step toward agreement."

Rep. Bloom (D) N. Y., ranking minority member of the House Foreign Affairs committee, declared that "we ought to follow his (Marshall's) plan of action and insist on Russia playing ball with us."

Other comment was:

**'Important Thing'**  
Sen. Thomas (D) Utah: "The important thing in his speech was that we must keep our country

## Dayton Is Named Rotary President

## Other Club Officers For Year Are Also Named At Meeting On Monday

Officers and directors were named by the New Castle Rotary club Monday, April 28, when the club met at noon in The Castleton hotel.

Lewis C. Dayton was named president to succeed Carlton J. Ferris. Mr. Dayton will take office July 1.

John O. Huston was named vice president of the club, Carl E. Paisley secretary and Frank L. Orth treasurer.

Directors named are J. Glenn Berry, Forbes W. Burdette and Ralph E. Peterson. Six new members were inducted Wednesday. They are Frank P. Brooks, Jr., Arthur McCreary, George Z. Miller, David Sussio, H. Meade Thompson and Godfrey Ulrich.

Monday's meeting was confined entirely to the election and general club business.

## U. S. FREIGHTER REPORTED ABLAZE IN NORWAY PORT

LONDON, April 29.—(INS)—Reuters reported today from Oslo that the United States freighter Pontus H. Ross is ablaze in the southern Norway port of Stavanger.

The Ross, carrying 3,300 tons of South American wheat, arrived in the port with a fire in the hold which had been burning for a week. Port firemen thus far have been unable to extinguish the blaze which appears to be at the bottom of the 7,000-ton ship's hold.

## Washington Is Ready To Greet Head Of Mexico

Notable Reception Is Planned For Mexican President On Arrival Today

## MAKING TRIP IN TRUMAN'S PLANE

BULLETIN

MEXICO CITY, April 29.—(INS)—President Miguel Aleman of Mexico took off for Washington from Mexico City's airport at 6:01 a. m. (8:01 a. m. EDT) today for a nine-day visit to the United States.

A three day visit in the United States capital will be followed by a tour of other parts of the country.

The Mexican president was expected to arrive in Washington at about 5 p. m. EDT.

By ROBERT G. NIXON  
(U. S. Staff Correspondent)

WASHINGTON, April 29.—President Truman will welcome President Miguel Aleman to the United States today, under conditions of great cordiality and amity, as a final cementing of relations between this country and Mexico in a turbulent world.

The nation's capital was dressed in the gala costumes of fiesta time to give the 43-year-old president of Mexico one of the most tumultuous welcomes ever accorded a visiting head of state.

The youthful Mexican chief executive arrives in the nation's capital in President Truman's own special plane, "The Flying White House," at 4 p. m. EST, today for a three-day visit, which begins a tour he will make to other parts of the nation.

Aleman's visit to Washington returns the good-will trip which President Truman made to Mexico several weeks ago.

The event will mark the first time

## Three Towns Hit By Tornado Are Being Rebuilt

WOODWARD, Okla., April 29.—(INS)—The effort and determination going into the rebuilding of Woodward and Higgins and Glazier, Tex., today were proof that the three Oklahoma and Texas Panhandle towns hit by a tornado April 9 will rise to new heights.

A survey of the activity and attitudes of the residents of the damaged cities revealed that not only will homes and businesses be replaced, but in their place will be bigger and better structures.

**New Section Being Built**  
At Woodward, where 218 city blocks were wiped out by the twister, a new residential section already is under construction.

About 430 homes were destroyed and countless others suffered irreparable damage from the tornado and the rain and snow which followed. The total damage was estimated at more than six million dollars.

Alex Geismar, vice-president of the Bank of Woodward, said about one-fourth of the loss was covered by insurance. He added, "Because of high costs, it will take twice as much to replace some of the structures."

"But they will be rebuilt. It will be six months before we pass from the clean-up phase to actual reconstruction, but the RFC has moved in and loans are being made for new homes."

The ladies were young, delightfully so, and charming as young maids could be, with inquiring minds as to what makes things run, so they sent all the ladies to me. I showed them around from the bottom to top, they saw how a paper is made, how stories are built and how comics get in, but now I'm a trifle afraid I was so much impressed by their candor and youth, and the things now and then they would say, that I missed a few things for these ladies of twelve—it's bright and it's seventy today.

## Testifies Garssons Never Got Lumber From May's Firm

(BULLETIN)  
WASHINGTON, April 29.—(INS)—A nephew of ex-Rep. Andrew J. May (D Ky.), testified today that so far as he knew the munitions-making Garssons brothers never got a stick of lumber for the thousands of dollars they poured into a Kentucky company operated by the Congressmen.

The nephew was Andrew J. May of Prestonsburg, Ky., who worked for his uncle at the Cumberland Lumber Co.

The government has charged that the lumber company was a blind to hide payments by Henry and Murray Garssons to the former Congress for "services" he rendered them while a member of Congress and chairman of the Military Affairs Committee.

## Release Doctor And Wife After Probe Of Denver Death

DENVER, April 29.—(INS)—Dr. George F. Netherthorn, 44, and his wife Margaret, 43, today had been released from custody by Denver police after lengthy questioning about the death of a woman in the physician's Denver office Saturday night.

Detective Sgt. Charles Burns, who ordered the couple's release last night, expressed belief Mrs. Maxine Briggs, 41, had died of a heart attack. The coroner's office withheld any report pending outcome of an autopsy.

The thin, clad body of Mrs. Briggs was found Sunday in the physician's office after a Saturday night party in which the physician said he, his wife and Mrs. Briggs had participated.

Sgt. Burns said Dr. Netherthorn reported that all three took drugs, as well as whisky at the party, and that Mrs. Briggs, his patient since 1935, had a weak heart.

## Elm St. Y. W. C. A.

**Friendship Club**  
Members of the Friendship club of the Elm street Y. W. C. A. met recently, and after the usual business meeting and other items of interest that were discussed, a lunch was served by the hostess, Mrs. Lillian Brown and Miss Corrie Garside.

The club will meet on April 30 at 8 o'clock, in the Elm street Y. W. C. A. with Mrs. Dorothy Hall and Mrs. Lucille Hambrick as hostesses.

**PAY FOR WINDOWS**  
Small boys broke 18 panes of glass in the H & M Alignment Service Garage in Junior High street during the past several nights and their parents have agreed to pay the damage, according to Police Chief Robert D. Hanna.

## WASHINGTON IS READY TO GREET HEAD OF MEXICO

(Continued from Page One)  
that the United States government has been host to a visiting foreign head of state since King George and Queen Elizabeth made their royal visit to America in June 1938.

And the capital was ready to accord a welcome as friendly and as magnificent as that which greeted the crowned heads of Great Britain.

All government offices will be closed for the occasion this afternoon.

**Huge Welcome Planned**  
More than a quarter million persons are expected to participate in the welcome acclaiming the Mexican president.

President Truman, his full cabinet, heads of the armed services, congressional leaders and other government officials will greet President Aleman and members of his staff when they arrive.

Enroute to Washington, the presidential plane will be escorted by two squadrons of huge B-29 Superfortresses of the 8th Air Force.

Approaching the capital, squadrons of jet propelled P-80 "shooting stars"—the army's most advanced type of fighter craft—will join the escort.

**To Fire Salute**  
As the presidential plane lands at the airport, a 21-gun salute will be fired.

Full military honors will be accorded the distinguished visitor by elements of the famous wartime 82nd Airborne Division, the crack unit which made the first American airborne assault of the war against Sicily during the Mediterranean campaign and which afterward won distinguished honors in the battle for Germany.

After being greeted by Mr. Truman and members of his cabinet, both the chief executives will exchange formal greetings in messages that will be broadcast throughout this country, to Mexico, and to the other Latin American republics.

## PRESIDENT RENEWS CUT PRICES APPEAL

production of goods at low prices by well-paid workmen and women who themselves make up the greater portion of the market for the goods they produce." He added:

**Must Move Forward**  
"On this firm foundation we must and will move forward to an ever freer and ever expanding system of private enterprise."

Mr. Truman said that "it is heartening to know" that the huge businessmen's organization is meeting "to consider the general welfare of our people as a whole and the ways in which businessmen can further America's continued prosperity and freedom."

H. asserted that "our democratic way of life runs no risk of successful challenge so long as all of us pull together—labor, agriculture, business and finance, and the government."

## OPPOSE MOVE TO EXTEND U. S. AID TO SOVIET COUNTRIES

(Continued on Page Two)  
has listed the recipients as Austria, Hungary, Greece, Italy, Poland and possibly China.

**Proposed Amendment**  
The proposed amendment was drawn up for submission by Rep. Colmer (D Miss.), a member of the House Foreign Affairs committee which reported out the bill authorizing the new relief funds. Colmer is a strong supporter of the Greco-Turkish aid.

Opponents of the amendment, among them Rep. Bloom (D N. Y.), ranking minority committee member, said the best way to fight communism was to aid hungry peoples of all countries.

Two other major amendments were pending as the House went into the fourth day's consideration of the bill. A proposal by Rep. Jonkman (R Mich.) would reduce the amount to 200 million dollars, while a substitute by Rep. Vorys (R Ohio) would have a congressional relief committee decide whether the full amount should be used.

**Separate Measure**  
The relief legislation is distinct from the Greco-Turkish aid bill. The latter measure has already been approved by the Senate and is now before the House Rules committee for clearance.

The Rules committee resumed discussions today on the Greco-Turkish aid bill after lengthy debate yesterday forced a postponement. The committee must report the bill to the floor before it can be called up for a vote. Tentative plans at present are to begin consideration in the House May 6, with possibly three days of general debate, following which voting will begin on the measure. A final vote might follow May 9 or 10 if this schedule were adhered to.

Sen. Hatch (D N. M.): "Despite the disagreement in the report, it holds some hope for the future. It's not all pessimistic. I think the people are strongly behind the secretary in the position he took at Moscow and the statement he made tonight."

Rep. Kee (D W. Va.): "I think it was a magnificent statement by a splendid secretary of state. It was plain, straight-forward, and complete."

Sen. Barkley (D Ky.): "It was a very comprehensive, dignified recital of the problems faced at Moscow. Secretary Marshall maintained the position of the United States with great force and dignity throughout."

Sen. Smith (R N. J.): "I think it was a very fine speech. I was glad to hear the general's optimistic tone. He showed a grasp of the whole situation. I would have felt very disappointed if he had been pessimistic because we cannot expect solutions to all the problems facing us over there all at once."

So heavy has been the enrollment in the new driving class that registration has been closed until students can be put through the course. Through this course it is hoped to reduce the percentage of accident on the highways, a result which has been accomplished in some of the cities where the course is being taught.

The keys of the training car have been turned over to Leslie Brindle, president of the school board by Alec Samuels, president of the New Castle Motor Club. "It is our hope" said Mr. Samuels, "that this training car will be the means of saving lives through the reduction of accidents."

## MARSHALL REPORTS ON ISSUES FACED AT MOSCOW PARLEY

(Continued from Page One)  
treaties for Germany and Austria as "only the task of skinning and brushing of reconnaissance forces."

"Differences had occurred in the past on other questions," Marshall described Stalin as saying, "and as a rule, after people have exhausted themselves in dispute, they then recognize the necessity of compromise. It was possible that no great success would be achieved at this session, but he thought that compromises were possible on all the main questions, including demilitarization, political structure of Germany, reparations and economic unity. It was necessary to have patience and not become pessimistic."

Marshall then commented:

**Hope Stalin Is Correct**  
"I sincerely hope the Generalissimo is correct in the view he expressed and that it implies a greater spirit of cooperation by the Soviet delegation in future conference."

"But we cannot ignore the factor of time involved here. The recovery of Europe has been far slower than had been expected. Disintegrating forces are becoming evident. The patient is sinking while the doctors deliberate."

"So I believe that action cannot await compromise through exhaustion. New issues arise daily. Whatever action is possible to meet these problems must be taken without delay."

Marshall made no specific suggestions for meeting this situation between now and the next meeting of the "Big Four" in London in November. But listeners assumed that he had other plans paralleling the Greco-Turkish aid project.

And he climaxed his speech with an appeal for American unity. He declared:

**Unity of Action Needed**  
"The state of the world today and the position of the United States make mandatory, in my opinion, a unity of action on the part of the American people."

For the most part Marshall dealt with historically recorded facts of the Moscow conference. He dwelt at length on the existing coal situation which hampers recovery and reconstruction.

He spoke of the hopes that had been had for the Moscow conference, the necessity of restoring Europe's economy, the form of the German government when reconstructed, differing views on extending reparations to Germany, future European boundaries, peace treaty procedure and Russia's attempt to amend the proposed four-power pact for the occupation of Germany.

**Four Power Pact**  
Of the proposed four power pact, put forward a year ago by then Secretary of State James F. Byrnes, Marshall declared that it was our hope that such a commitment by the U. S. would relieve the fear of the other European powers that the United States would repeat its actions following the first world war, insisting on various terms for the peace settlement and then withdrawing from a position of any responsibility for its enforcement."

In other passages of his talk Marshall made direct or implied criticism of the Soviet attitude. These included:

1. "I was forced to the conclusion," he said in referring to the Russian demands to turn the four-power pact into a peace treaty, "that the Soviet government either did not desire such a pact or was following a course calculated to delay any immediate prospect of its adoption."

2. In the Austrian treaty the Soviet government refused to recognize as Austrian those assets taken by the Germans through duress as well as by force. The Russians also refused to make assets they might take in Austria subject to Austrian law. The net effect, he declared, would be to make Austria a puppet state.

3. Under Russian reparations demands a large part of Germany's economic power would be mortgaged to Russia. "In another form the same mortgage upon Austria was claimed by the Soviet Union," he added.

4. "Freedom of information for which our government stands," he said, "inevitably involves appeals to public opinion. But at Moscow propaganda appeals to emotion and prejudice appeared to take the place of appeals to reason and understanding."

5. "Charges were made by the Soviet delegation and interpretation given the Potsdam and other agreements, which varied completely from the facts as understood or as generally known by the American delegation."

6. Despite the need to rehabilitate German economy, the Russians in defiance of the Potsdam agreement, have operated their occupation zone "without regard to the other zones and have made few if any reports of what has been occurring in that zone." They have refused to disclose the availability of foodstuffs and the degree of the character or reparations taken from the Russian zone.

Marshall declared the fact that Sen. Vandenberg (R Mich.) and Connally (D Tex.), foreign relations committee leaders, had not been able to attend the Moscow meeting as they had other peace rallies. "But he paid tribute to the 'invaluable assistance' given him by John Foster Dulles, international expert and leading Republican who served as Marshall's adviser."

## Business Block Burns In Berkeley

BERKELEY, Calif., April 29.—(INS)—A business block in downtown Berkeley was gutted by fire today.

Property damage was estimated at from \$150,000 to \$250,000.

Four firemen suffered minor injuries in a battle that lasted nearly three hours before the blaze was subdued.

Eleven commercial enterprises on the ground floor of the sprawling two-story concrete building were destroyed or heavily damaged.

The cause of the fire was not known.

## Hayride Wagon Struck By Truck; Three Girls Hurt

COATESVILLE, Pa., April 29.—(INS)—Three young girls were in Coatesville hospital today with serious injuries suffered when a truck-trailer plowed into their "hayride wagon" last night on the Lincoln highway.

They were part of a group of 12 girls who were spilled onto the highway when the truck splintered the wagon and killed the "wo" horses that were drawing it.

State police identified the three seriously injured as Mary Lou Burns, 14; Joyce Harple, 12, and Ida Fay Noxey, 12. All suffered possible fractures and internal injuries. The other girls were cut and bruised.

The girls were pupils in the Cain township consolidated school, and members of the YWCA Girl Reserves. State police described as "miraculous" the fact that none was fatally injured.

The truck driver, Harry Bewley, 40, of Lancaster, escaped uninjured.

### COUNTY ART GROUP ELECTION PROGRAM

Lawrence County Art Association met in a tearoom at 234 North Mill street for 6:30 o'clock dinner Monday evening. Dinner was served to 20 at a long table lighted by white candles in star-shaped crystal holders.

During the business meeting, with Mrs. Robert Skillen, nee Elsie Wasco, presiding, officers to serve for the coming year were elected as follows: president, Miss Virginia Foulke; vice president, Miss Ann McClure of New Wilmington; secretary, Mrs. Lester McClelland; treasurer, Miss Rosena McGurk.

Weaving with glimp under the supervision of Mrs. Skillen formed the interesting after dinner program. Members wore bracelets in designs with many working out interesting original designs.

On May 26 the association will be entertained in the cottage of Miss Rosena McGurk near Rose Point for a supper meeting with the social committee in charge of arrangements.

### RECEPTION TONIGHT AT FIRST CHURCH

In the First Presbyterian church this evening following installation services at eight o'clock for Dr. Robert F. Galbreath, there will be a reception in the new pastor's honor in the church parlors for all members of the congregation, their families and friends.

Committee in charge of arrangements for the reception is Mrs. W. Walter Braham, Austin A. Webb and Arthur M. Guy.

### MAUREEN DOLAN TO ATTEND MAY QUEEN

Miss Maureen Dolan, a junior in Seton Hill college, has been chosen by her classmates as one of the attendants to the May Queen. The coronation of the Queen will take place at May Day festivities on the college campus, May 10.

### ENTERTAIN FOR SON'S FIANCEE

In their home on Saturday evening, Mr. and Mrs. P. J. Daugherty entertained a group of about 30 relatives at an evening card party for the pleasure of their son's fiancée, Miss Margaret Pape.

Cards and games were in play during the evening as diversion and later the guest of honor was presented with an array of lovely gifts. In serving a lunch, the hostess was assisted by her daughters, the Misses Mary Therese and Francis Daugherty, Mary Lowers and Mary Anne Gittings.

Miss Pape will become the bride of Hubert Daugherty at an open church ceremony to take place May 10 at 9 a. m. in St. Mary's church. The bride-elect is the daughter of Louis A. Pape, of 227 East Laurel avenue.

### MR. AND MRS. G. FURST MARK ANNIVERSARY

At the home of Mr. and Mrs. Gordon Furst of Franklin, formerly of this city, a group of relatives gathered recently to help celebrate their twenty-fifth wedding anniversary.

Out of town relatives included Mrs. Austa Furst, and his uncle, Joseph Elder of Fayette, Pa.; Mrs. S. J. Callahan, son Richard James, daughter Mrs. Virginia Houk and her daughter Patricia; Attorney and Mrs. J. Elder Bryan and daughters Jane and Ruth Ann of this city; Mr. and Mrs. William P. Callahan and sons John and James of Wellsboro, Pa.; Mr. and Mrs. Glenn Thomas and son Duane of Morris, Pa.

Mr. and Mrs. Furst have three sons, Andy, Gordon, Jr. and David, and one daughter Barbara. David is still in U. S. service, stationed in Korea.

A splendid dinner was served by the hostess. The couple were the recipients of many lovely gifts and cards of greeting. Little Patricia, this being her first birthday anniversary, had her say in song, while her grandmother, Mrs. Callahan, accompanied.

### YOUNG ADULT CLASS MEETS

For its first meeting since organization the new adult Sunday school class of Bessemer Presbyterian church met Friday evening in the church with Wilbur Kussel, first vice president, presiding over business.

Other officers recently elected are: president, Robert Rowe; second vice president, William Pelt; treasurer, Mrs. Sam Inks; secretary, Miss Pearl Stanley. After business a social time was enjoyed with group singing and pingpong as diversions.

A lunch was served by a committee from the Sunday school, Mrs. Roy DeArment, Mrs. Charles Nelson, and Mrs. E. Chester Crabb.

For the May 23 meeting Mr. and Mrs. Len Galansky will be hosts.

W. I. T. Y. Club  
W. I. T. Y. club gathered Monday evening in the home of Mrs. Robert Park, Chestnut street.

Mrs. Betty Haines, Mrs. Jack Kirkwood and Mrs. Merle Ross were awarded tokens for bridge. Later Mrs. Ray Nolte was an aide in serving a tempting repast.

Mrs. Merle Ross, Chestnut street, will entertain Monday evening, May 12.

Lookout Class Dinner  
Lookout class of the First Christian church gathered in the church dining room for a tureen dinner on a recent evening with Miss Janet McClung and Courter Mills as the host committee.

After a short business meeting, pingpong and shuffleboard furnished entertainment for the group. May 14 the class plans a mother's banquet.

#### WEDDING EVENT

At a lovely open church ceremony performed in the St. Vitus church April 19 at 9:15 a. m., Miss Mary Frances Quinn, daughter of Mr. and Mrs. Enrico Quinilliani, 1222 Finch street, became the bride of Peter Anthony Gallo, son of Mrs. Josephine Gallo, 811 McCleary avenue. Rev. Father Albert Inteso officiated, using the double ring ceremony.

The bride, given in marriage by her father, was charming in a white satin gown with long train. She wore a long veil which fell from a seed pearl head crown. Her bouquet with long streamers was of calla lilies centered with an orchid. The only jewelry worn by the bride was a two-strand pearl necklace, a gift of the groom.

Miss Helen Swiatkiewicz as maid of honor wore an aqua marquette gown and carried Johanna Hill roses. Bridesmaids were Miss Velma Quinn, sister of the bride; Miss Mary Gallo, sister of the groom; Miss Lillian Moffo, cousin of the bride, and Miss Dolly Collins from Bruceton Mills, W. Va. All wore gowns of yellow marquette and carried pink roses and white carnations.

John Len served the groom as best man, with Frank Dubrasky, Peter Albertini, Deno DiLorenzo and Frank Cook serving as ushers.

Mrs. Gallo is a graduate of New Castle high school and is employed by the Shenango Pottery. Mr. Gallo attended Union high school and is affiliated with the Standard Steel Spring Works.

The young couple left for a wedding trip to a destination unknown. Upon their return they will reside at their newly furnished apartment at 1210 Williams street.

At 7:30 p. m. a reception was held at the King Humbert hall. Guests numbered 200.

### ROSE VERCELLA WEDS VETO FERA

An early spring wedding performed Monday morning at 10 o'clock in the home of Justice of the Peace, George Bright on the Ellwood City road, united in marriage, Miss Rose Vercella, daughter of Mr. and Mrs. Benny Vercella, 1014 Clearview, and Veto Fera, son of Mrs. Concetta Fera, and the late Domenick Fera, Coraopolis, Pa.

Many friends and relatives were in attendance, to witness the double ring ceremony.

The bride wore a white satin gown, with lace yoke trimmed with seed pearls and a full skirt made of tulle, with lace insertions. She wore a full length veil, and carried white roses, centered with an orchid. Miss Mary Vercella, sister of the bride, as maid of honor, wore a pink taffeta gown, blue accessories and a tiara of tallman roses. Her bouquet was of tallman roses.

Domenick Fera, of Ellwood City, nephew of the bridegroom was best man.

A wedding breakfast was served at the bride's home and a wedding dinner served to 50 at the Savoia hall at noon. A reception was held in the evening.

Mr. and Mrs. Fera departed on a wedding trip to New York and Canada, and upon their return will reside in their newly furnished apartment, 922 Watson street, Coraopolis, where Mr. Fera is proprietor of a grocery store.

Mrs. Fera is a former Shenango Pottery company employee.

Mr. Fera served four years with the U. S. Army in the Pacific theatre of war.

### JEANNE THOMAS' BETROTHAL TOLD

## Washington Calling

By Marquis Childs

### Peron Not Eligible For Aid From U. S.

WASHINGTON, April 29.—We can expect that a great many odd and assorted governments will try to cash in on the Truman doctrine. The line of governments has already formed on the right. Some of them, it might be added, on the extreme right.

Beneath the surface significant developments have occurred since the President's message to Congress on Greece and Turkey. Powerful men are maneuvering in Washington and in the Argentine to get Dictator Peron the kind of help he wants from this country.

This is how their argument goes. In coming to terms with Peron, we would be giving a demonstration of solidarity that could not help but impress the Russians. Our success would be in marked contrast to the failure of the Soviet attempt to woo Argentina's dictator. This argument comes from influential men who have supported the so-called Truman doctrine.

**Firmly Opposed**  
Assistant Secretary of State Spruille Braden is as firmly opposed as he ever was to any deals with Peron. Braden can present a mass of evidence to show that Peron, in his program and in his flamboyant proclamations, is in the pattern of Hitler.

Braden believes he has the backing of President Truman and Secretary Marshall for his policy. If Braden goes out, it will be a fairly clear signal that the pro-Peronists both in and out of government, have won a victory. One of the most conspicuous pro-Peronists is

## The World and the Mud Puddles

**WHAT DR. POLLOCK THINKS**  
How many people are there in New Castle who remember Dr. James K. Pollock, who is now a professor of political science at the University of Michigan?

Well, Dr. Pollock was born in New Castle. He went through the public schools in New Castle and, I believe, started with his father to practice medicine and then "lit" out, and finally wound up, as I have mentioned, as a teacher of political science in one of America's great institutions of learning.

Now, I do not know Dr. Pollock, so I cannot give his reasons for being interested in Germany, but after the end of the war he spent more than a year in Germany, came home for a while, and then went back to see how things were going.

**Know Little Of Germany**  
There are very few of us who know anything about what is going on in postwar Germany. We get some of our impressions from young soldiers, who may not see very much of the situation and hardly know how to compare it with either the past or with the possibilities; or we hear about Germany from some two-weeks touring columnist; or from somebody who doesn't like General Clay. If you don't know who Clay is, he is in charge of the American forces in that part of Germany under our dominion just now; or—well, we just get what Oscar Levant so aptly calls "a smattering of ignorance."

Now, Dr. Pollock should be pretty well informed. He combines excellent theoretical knowledge with practical experience in the field. He says most criticism of our activities in Germany is not properly aimed—it results from matters over which we have no control. Obviously, he says the division of Germany into four airtight compartments, each run by a different nation with different ideas of how it should be done, makes things very difficult. Gradual merging of the American and British zones will help some, he believes, and of course the unification of control of all four zones would be better.

The American zone alone, he says, has seen much real democracy practiced. The purge of Nazis is very genuine and the German courts have seized on the chance to clean house with considerable vigor. Top-level Nazis are eligible to do only manual labor now. Ordinary Nazis (classified as "followers") are free to do whatever work they can, but have limited citizenship rights until they are good citizens. The German governments which are functioning in the three States in the American zone are doing very well, Dr. Pollock thinks.

**Showing Signs**  
The best indication of this is the healthy rebellion of the State legislatures against attempts of the executives to do things without consulting them. It is too much to say, perhaps, that the Germans in our zone are really converted to our way of doing things, but they

## The Parent Problem

By Garry C. Myers, Ph. D.

### BAD LANGUAGE AND BAD TEMPER

Many parents and teachers write expressing concern over the prevalence of obscene language among children. Obscene language seems to be pretty prevalent among older children and adults. Younger children who are exposed to such, should hardly be expected to be clean of speech. It is tragic that many children whose homes have a high degree of decency and refinement come in touch with children who talk obscenely. There is a certain lure in obscene language for the child from about five to twelve, since his using it may make him feel free and important.

Provided you as parents use only refined speech, do as follows: When you first hear an obscene word from your tot quietly say, "We don't use such language." This may suffice. If it does not, tell him he must not "say that again." Then if you hear him repeat it, paddle him soundly without further talk. Allow no exceptions thereafter.

**Build Mutual Regard**  
In the meanwhile, build more firmly your mutual regard with that child, having more good times and companionship with him. Attract his playmates to your premises, leading them to see they must obey certain rules of your home or be sent back to their own home. But try to make their visits to your home so attractive that they will choose to conform. Wonderful, if as your child grows old enough to make things, he can have tools and a workshop where other children make things with him. You see, when children converse in the hearing of refined adults they hardly will engage in bad language. Of this fact I was greatly impressed as I observed my own child and their many friends doing and making.

**NO ONE HAS EVERYTHING**  
Given things are treasured more than are trinkets bargained for. Girls are weighted down with thought.

"Which with money can't be bought."  
"He has everything!" Ah, no. In this life that's never so. All have needs, as time goes by. Only friendships can supply.

Rich men know it's vain to try Every want to gratify. All wish something while they live Others care enough to give.

Purchased stuff is tossed aside. Kept are proofs of love and pride. Treasured till the day we die. Things our money couldn't buy.

## From Me To You

By MESEALL

Not only do the women of this and every other community have a job on their hands at this time of year . . . but every man and woman who owns, manages or is responsible for a building, factory or what have you has a job that is very important. Call it spring housecleaning if you like . . . that's what the housewife calls her operation . . . but the job that should be done in each business is more important than merely cleaning wallpaper . . . and washing down walls.

Too many business houses are neglecting trash . . . that is . . . too many places have paper bins . . . or places where waste paper is thrown and not cleaned out daily. The fire hazards are far too great . . . not enough fire extinguishers spotted around . . . when was the last time you had your property inspected by a fire marshal?

This is very-serious business and should attract attention of every man who considers himself a credit to his community . . . we have been very fortunate the past few years . . . fires have not touched our city . . . but it doesn't take much of a memory to recall the many fires we had one year and all within a few days time.

And beside inspecting for trash and rubbish . . . and lack of fire extinguishers . . . smoking by employees and customers should be somewhat studied . . . we notice several local stores have posted signs . . . NO SMOKING.

In Pittsburgh they now have a law forbidding smoking by customers in the large department stores . . . and they don't make that type of law just for the fun of using up paper.

The great American public is sure something . . . all this talk and nine out of ten will say . . . that's for the other fellow . . . I'm not doing anything against the fire law . . . I'm careful he says . . . nothing will happen to my place . . . We hope that's right but if you think carefully you will know that it couldn't hold true. When you throw a piece of waste paper on the street you are contributing to a fire hazard.

## Looking At Life

By Erich Brandeis

We visited a young married couple last night. They expect a baby in a couple of months.

"What would you like the baby to be?" I asked. "A boy or a girl?" "I hope it will be a boy," said the wife, "girls get all the worst of life." "I prefer a girl," said the prospective father, "it's tough to be a man nowadays, and women get everything handed to them, while men have to fight and dig for everything they want to get."

And then the argument started. Since my wife naturally sided with the woman and I with the man, we were equally divided.

Here was the women's point of view:

Girls are much more restricted than boys. To every "must" not for a boy, there are ten for a girl. If a girl wants to have as much fun as a boy she is called a tom-boy and a hoyde—

She has to be, oh so circumspect, and if she gets her little dress dirty it is a calamity. A boy can go out and get himself all mused up and people will say "a regular boy, isn't he?"

Then come the late teens—and every girl thinks of getting married. She has to be at her best to attract desirable men and she has to wait until the lord and master comes along and pops the question.

Fellows, on the other hand, can pick and choose from a large selection and marry whom they want when they get jolly well ready.

Then the girl finally gets her man. Now what?

She has to be housekeeper and hostess. She has to help her husband to get ahead in business. She has to be satisfied with whatever money he gives her.

She has to cater to his gripes and grouches. She leads a monotonous life, while he fights that glorious battle for success.

There was much more, but that will give you an idea.

Now this is what we men said:

Girls are coddled and spoiled. When they are very young, all they have to do is cry and they can get what they want.

When they get older they are taken out to nice places, and it is all the fellow who foots the bill. They get milk coats and diamonds (at least some of them), but no matter what they get, it's always the man who pays.

They have none of the intrigues and tricks and schemes of business or public life and they can stay home all day or go out and play bridge while the poor man works his head off to make a living for the family.

The argument went on and on until midnight, and like most arguments it got us nowhere.

When we finally went to bed and my wife said a sleepy good night to me, she asked: "Would you rather be a girl, dear?"

"I think I would," I said and fell asleep with a lie just spoken.

But I slept well, and may the Lord have mercy on my soul.

### FINGER BOWLS

Question: Is a finger bowl a "must"? That is, if you feel that you have no need to dip your fingers, must you anyway?

Answer: It is not a "must" but it usually is used whether or not it is necessary. It is merely a civilized era of eating with silver instead of with the fingers.

Question: Several months ago, I lent a friend a book which she has failed to return. Do you think she would consider me rude if I asked for it? She has evidently forgotten about it, since she never mentions it.

Answer: You are perfectly justified in asking her for the book. The world is full of people who borrow books and fail to return them. They need a good shaking up once in a while. Do it courteously by telling her that you had promised it to someone else after she had finished with it.

Question: I have recently broken friendly with my ex-fiance's mother giving her birthday and Christmas gifts. She will have a birthday. Would it be correct for me to give her a gift, even though I am permanently estranged from her son?

Answer: If you and your ex-fiance's mother intend to continue your friendship, you may with propriety send her a gift, despite your rift with her son.

Question: Must one in mourning refrain from all amusements, or is it permissible to go about in the usual way.

Answer: To be absolutely consistent, one wearing mourning should avoid gay places of amusement, such as night club, musical show and the like. Although no one could justly criticize a bereaved person for seeking the diversion of a play or a concert.

Perhaps Marshall Has Outsmarted Russians  
Lend-Lease Debt Talks Open Way To Old Score  
F. C. C. May Be Probed By Republicans

### Special to Central Press

**WASHINGTON, April 29.**—Secretary of State George Marshall is believed to have outsmarted the Russians in getting them to agree to the beginning of talks on settlement of their \$11,000,000,000 lend-lease account.

When talks were originally proposed a year ago, the United States acted in connection with the Russian application for a one billion dollar loan from this country.

The American State department took the position that the loan could be discussed only along with the settlement of all outstanding financial problems.

What was not mentioned was the fact that among these problems was the old question of the Soviet regime honoring the debts of its preceding Czarist government.

The failure of the Communist government to pay individual Americans for property seized under Communist decrees was the sole reason the United States waited so long to recognize the Lenin-Stalin regime.

Now if the Russians were again to bring up the loan proposition in the lend-lease talks, the United States could also bring up the settlement of old debts.

The old debts, of course, are a matter Moscow is believed less ready to talk about now than it was before the war.

**BACKERS OF HAROLD E. STASSEN**, the only avowed candidate for the 1948 Republican presidential nomination, are taking new hope on the wings of fresh developments.

First off, they are encouraged by the widening split between Senate President Arthur H. Vandenberg and Senator Robert Taft, the GOP domestic policy maker.

They also are buoyed by the fact that Stassen's European fact-finding tour—dismissed by his interview with Premier Stalin—has boosted the former Minnesota governor's stock.

The Vandenberg-Taft rift might point the way to a convention deadlock. In event of such a situation, Stassen's boys feel that their candidate might emerge on top much in the manner that Wendell Willkie did in 1940.

**MANY FEDERAL WORKERS** have come to regard the constant changes in their offices—shifting here and there and moving about—as a form of industry which might be curtailed.

Moving government offices around flourished throughout the war and some officials contended that it actually hampered, rather than helped the war effort.

During lengthy periods offices were dispersed, disrupted and disturbed generally because of the complications caused by moving.

Since the war moving activities have ceased less than most other government activities.

The present State department move is cited as a case in point. Offices were moved out of the historic old department to the new building, a half a mile away, which soon will be occupied by Secretary of State Marshall and his top advisers.

Many people already in the new offices, meanwhile, will move back to their old ones when Marshall is shifted.

**GENERALISSIMO FRANCISCO FRANCO'S** announced intention of setting up a monarchy in Spain left the United States cold. The State department says the move will not change the already-distant relations between the Madrid dictatorship and Washington.

It was pointed out that there has been no real indication that Franco plans to surrender any of the major powers which have put him and kept him safely as the dominant figure in Spain.

**LOOK FOR A GOP DRIVE** on Capitol Hill to probe the Federal Communications commission.

Both Senate and House GOP leaders are agreed on demands for an investigation.

Rep. John Wolverton (R), New Jersey, has asked for an inquiry and Senate Majority Leader Wallace White, of Maine, GOP communications expert, is amenable.

The probe would be undertaken to determine whether FCC policies are up-to-date, whether there is discrimination against radio stations and whether leftists wield influence in the commission.

## In View Of The News

By J. C. Ostreicher, INS Foreign Director

One of the most tangled and seemingly insoluble problems ever to protrude itself upon a troubled world was handed over to the general assembly of the United Nations on Flushing Meadows.

For a period of some days at least, the world will have an opportunity to hear the whole unvarnished story of Palestine and its problems—particularly why Great Britain has offered to relinquish a mandate that has been at one and the same time both a liability and an asset.

The assembly meets to consider the Palestine issue at a moment when the Labor Government of Prime Minister Clement Richard Attlee has chosen to adopt a firm stand in support of its policies.

Attlee's sharply intensified and case-hardened attitude was emphasized by Attlee himself in an campaign speech which in any and all events displayed a great deal of personal political courage.

He "faced up" squarely to Winston Churchill, the most bitter critic of the Labor Government who has accused Attlee of dismantling the British Empire with cavalier disdain of traditions and prestige.

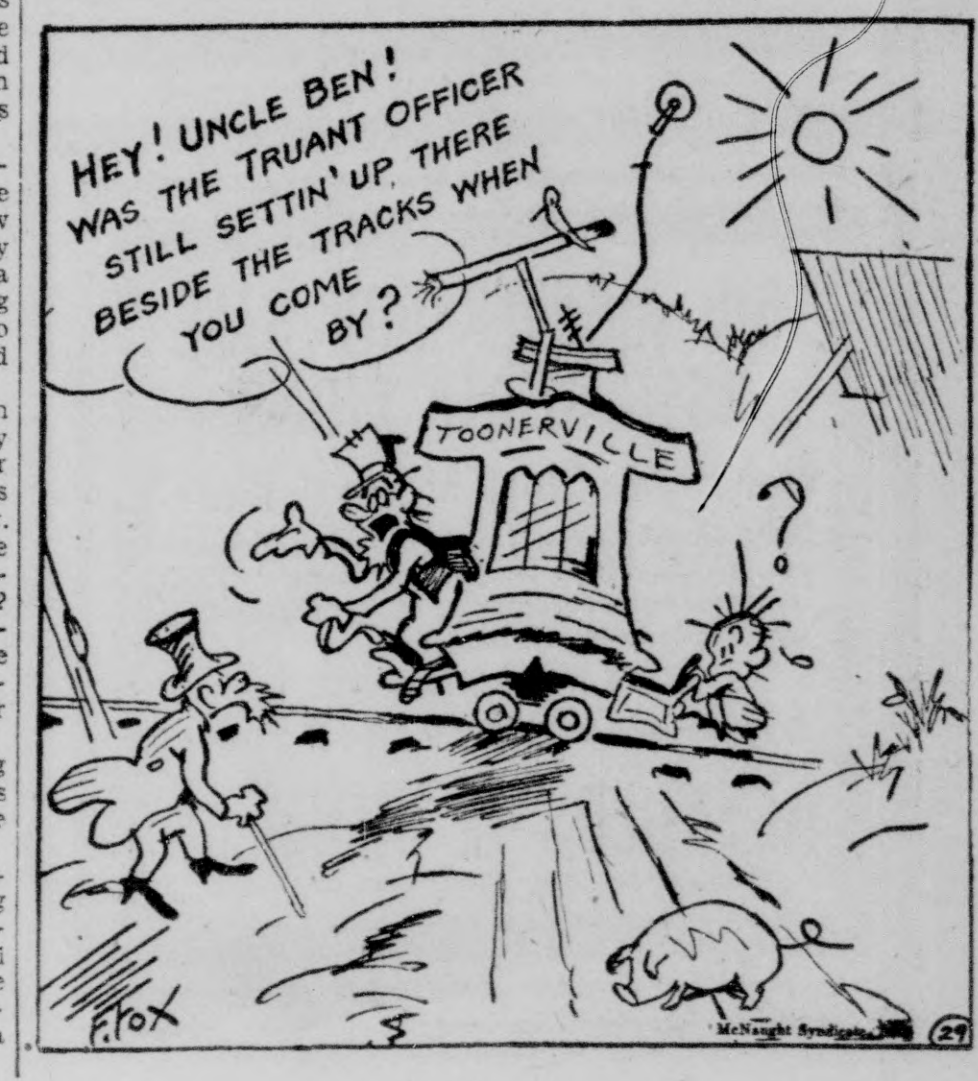

**Attlee Answers**  
In answer, Attlee labelled Britain's famous and venerated war leader as a man lacking realism and even went so far as to say that the revered leader of his nation's resistance, revival and eventual victory in the second world conflict had bungled the country's finances irreparably when he was chancellor of the exchequer.

In United States policies are followed, the assembly simply will appoint a fact-finding commission to study the Palestine situation thoroughly and report back with its recommendations sometime later in the year.

But even that is bound to be attended by a considerable amount of fireworks.

## New Salary Bill Causes Comment

Measure Before Legislature Would Provide New Salary Setting Plan

### OTHER NEWS OF COURT HOUSE

There is before the General Assembly of Pennsylvania at the present time a bill which provides that the salaries of all elected county officials shall be set by the commissioners. It seems hardly necessary to point out that the bill is opposed by most of the elected public officials.

What is back of the bill is not quite clear. Most county commissioners get salaries less than many of the other elected officials. In sixth class counties, district attorney, sheriff, county treasurer, register and recorder and prothonotary and clerks of courts. Some of the positions pay better than twice as much as the county commissioners.

It would be difficult to believe that the average county commissioner would be willing to set a salary for the official in the next office twice as high as the commissioners' salary.

Another possibility is seen where the majority of the county commissioners were of a different political faith than some other officer, say the sheriff.

The salary of county commissioners in a sixth class county is \$3,000 per year. The sheriff's job is worth somewhere between \$6,500 and \$7,000 in cash and allowances. Two Republican commissioners could set a Democratic sheriff's salary or vice versa, down to where it would be worth not more than \$4,000 per year or they could step it up for a friend to where it would be worth ten thousand.

## Detroit Woman Gives War Bride Passage To Home

DETROIT, April 29.—(INS)—A Detroit woman's belief that "you can't take it with you" today will enable a 29-year-old Austrian war bride to return to her native land. The Australian bride, Mrs. Phyllis May Wood of Richmond, Calif., gained nation-wide attention when she offered to sell one of her eyes for passage to her homeland for herself and three-year-old son.

Mrs. Marie Kay Wolverton of Detroit heard the plea and sent the young mother \$600. She explained: "I almost lost the sight of one of my eyes several years ago, and I don't want that to happen to this young woman."

The young bride explains that her 28-year-old husband, Robert, is a disabled war veteran and will work his way to Australia later.

Mrs. Wood added that she was tired of red tape and family trouble and decided she could do better looking for a job in Australia.

Mrs. Wolverton, in making her offer, stated: "Well, what's a few hundred dollars if it spares them a life-time of misery? As the saying goes, 'You can't take it with you.'"

## Y.W.C.A. FUND TO PROVIDE STUDY

Forty-Seven Women From War-Devastated Countries Being Brought To U. S.

Mrs. Roy Long, chairman of the New Castle Y.W.C.A. Reconstruction Fund, has just received word that 47 women from 16 war devastated countries are being brought to the United States for advanced study through the Y.W.C.A. \$2,100,000 Round the World Reconstruction Fund, to which New Castle has given \$2,864.06. The remaining 75 per cent of the national quota is now being completed in many cities of the United States including Pittsburgh.

"Since the purpose of the reconstruction fund is leadership training, each of these students will go back to her own country and pass on to thousands of others the skills of community organization and the techniques of modern democracy observed in the United States and on which the philosophy of the Y.W.C.A. is based."

These students, through their knowledge of American life and exchange of ideas achieve more than just the field of study for which they came; they help broaden our own understanding of the peoples of other countries and so contribute to international tolerance."

The Y.W.C.A. in the United States, composed of 435 local associations, has always emphasized education for citizenship in social, political and international relations and cultural subjects.

Besides exchange of students with other countries and educational work at Y.W.C.A. centers here, the organization also contributes to international understanding by sending American workers abroad, and through their attendance at regional hemispheric and world-wide conferences. American delegates are now preparing to attend the annual meeting of the World's Council of the Y.W.C.A. in China next fall.

Mrs. Maurice Moore, the National Reconstruction Fund Chairman, wrote Mrs. Long to tell New Castle Y.W.C.A. members how deeply the national board appreciates our effort in having over-subscribed our quota.

## Chesnut Afraid Of Inflation If Action Not Taken

PHILADELPHIA, April 29.—(INS)—Secretary of Labor and Industry William H. Chesnut was fearful today of "calamitous inflation" unless a cure was found for the nation's economic ills.

He told the German-Hungarian Sport club in a Saturday night speech that economy was jeopardized by rising prices and increasing costs.

And our own government is to blame, to a large extent, for our hazardous plight," he asserted. "The present administration is not entirely sincere in its efforts to stem the threatening tide."

Chesnut claimed the federal government was helping to enforce high prices through its food subsidy programs.

"Only a few days ago," he said, the President of the United States called upon American industry and

## Butler County Man Is Fatally Burned

Several Others Seriously Burned In Open-Air Fire Accident On Monday

BUTLER, April 29.—Showered by flames and live coals Monday as he attempted to feed an open-air fire with tractor fuel, Louis N. Hinchberger, 68, died in Butler Memorial Hospital.

Others injured were: Charles Kennedy, 23, Butler R.D. 4, severe burns on the left leg, taken to the hospital for treatment and released; Steven Smulik, 21, Butler R.D. 4, burns about the hands, taken to the hospital for treatment and released.

Hinchberger's son, Mark, 22, and the victim's nephew, Wendell Smith, 26, were burned about the hands when he helped to extinguish his flaming clothes. Hinchberger, a retired Butler county farmer, had been helping in the butchering of two pigs. He was the father of Paul Hinchberger, Butler physician.

The use of whalebone in boning corsets was discontinued a number of years ago. "Bones" are now made of lightweight steel.

## Initiate Four Into Fraternity

NEW WILMINGTON, April 29.—Scroll, English honorary fraternity at Westminster, initiated four college students into its ranks on Friday, April 25. The service was held in the faculty lounge of the McGill Memorial Library.

The new members are: David Cornelius, Lima, O.; Cynthia Bachele, Columbus, Ga.; Jean Johnson, Irwin, and Helen Holleran, Canonsburg. Cornelius and Pat Hadley, Sharon, read original manuscripts to conclude the meeting.

The use of whalebone in boning corsets was discontinued a number of years ago. "Bones" are now made of lightweight steel.

## Union Treasury Robber Charged In Tax Evasion

NEW YORK, April 29.—(INS)—James V. Bove, now serving a ten to 20 year term for robbing the treasury of the AFL Hod Carriers union, was to go on trial in Federal court today on charges of evading income taxes.

Bove a former vice-president of the union is charged with evading \$100,000 in taxes. He will be brought from Auburn prison, where he is serving his sentence, on a writ of habeas corpus.

The government charges Bove and Joseph S. Fay, failed to report funds they received in connection with construction of the Delaware river aqueduct supply water to New York.

Fay was acquitted on similar charges last January in Federal court in Newark. Fay, however, is under sentence of 8½ to 16 years in prison on extortion charges.

## Stassen To Confer With Vandenberg

NEW YORK, April 29.—(INS)—Harold E. Stassen, who returned yesterday from a 18,000-mile European tour, will fly to Washington this afternoon to confer with Sen. Vandenberg, chairman of the foreign affairs committee.

The former Minnesota governor and candidate for the 1948 Republican presidential nomination will leave LaGuardia Field aboard an American airliner at 1:30 p. m. (EST).

Stassen, who visited 16 countries on a "look and see" basis, said on his return to the United States that the world can "win peace in this generation" if this country remains "strong and follows a wise, humanitarian foreign policy."

While abroad, Stassen talked to Winston Churchill, Premier Stalin, British Prime Minister Attlee, French President Auriol and other ranking government leaders.

## Lewis And Mine Operators Begin Wage Parley

WASHINGTON, April 29.—(INS)—John L. Lewis and the mine operators began negotiations today for a wage contract in the bituminous coal industry.

Lewis, accompanied by UMW Secretary-Treasurer Thomas Kennedy and other UMW aides, conferred with the operators in a government-sponsored conference at the Interior Department.

Capt. N. H. Collisson, federal coal mines administrator, presided at the opening of the conference. Secretary of Interior Krug was not present.

The talks are aimed at a resumption of contract negotiations which have been held in abeyance for seven months while the government operated the soft coal mines.

**House Committee Delays Action On Greco-Turkish Aid**

WASHINGTON, April 29.—(INS)—The House Rules committee today again delayed final action on the Greco-Turkish aid bill as members protested any attempt to shove through the President's block-communism plan.

The committee agreed to renew tomorrow its questioning of Rep. Smith (R) Wis., who attacked the stand of Sen. Vandenberg (R)

Mich., chairman of the Senate Foreign Relations committee.

Smith asserted the matter should be referred to the United Nations. He said that if the UN failed to act, Congress then should consider a "national defense measure" in the Middle East situation.

Rep. Brown (R) Ohio, who also objected to sending the meat to the House floor for a vote, declared he had learned that Russian ships now are loading war materials and machinery at Norfolk, Va., under lend-lease agreements.

Brown said this was inconsistent with President Truman's plan to halt the spread of communism by aiding Greece and Turkey.

## Detroit Baseball Team Charged With Stalling Law Suit

### 'Hush Money' Said Offered To Keep Hotel Manager From Suing Tiger Pitcher

CLEVELAND, April 29.—(INS)—

A Cleveland attorney charged today

that the management of the Detroit

baseball team had offered "hush

money" to forestall a pending law

suit of \$25,000 against Virgil Trucks,

ace pitcher.

The attorney, Marving C. Harri-

son, said the management had sent

a "tip" of "about one or two hun-

dred dollars" in the hope that

Charles F. Heidler, Stadler hotel

night manager, would not press

charges of an alleged assault made

on him last Sept. 20 by the Tiger

mound star.

Harrison said the check sent by

the Detroit club was not cashed

and would not be accepted.

An attempt to serve Trucks with

a summons while the Detroit team

appeared in Cleveland the past

three days was unsuccessful as the

Tiger hurler remained in Detroit.

Manager Steve O'Neil asserted

that Trucks was given permission

to remain behind in order to hunt

for an apartment for his family.

Baseball observers declared, how-

ever, that in the normal rotation of

pitchers, Trucks should have been

on the mound yesterday.

The alleged attack took place on

a seventh-floor corridor of the ho-

tel. Heidler reportedly suffered se-

vere bruises and contusions on the

head from fist blows and kicks.

## Witness Refuses To Sign Affidavit At Tokyo Trials

TOKYO, April 29.—(INS)—A de-

fense witness in the Tokyo war

crimes trial refused today to sign an

affidavit which defense lawyers said

he had given them earlier.

The affidavit purportedly out-

lined communist activities in China.

The witness, Kenichi Hataho, de-

nied a defense assertion that he was

probably to sign the document be-

cause he feared the Soviets.

Nevertheless Hataho declined to

give his reasons for refusing to

sign the affidavit.

The international far east tri-

bunal, trying 25 former Japanese

war leaders, ruled that defense

arguments regarding the reasons

for Japan's invasion of China were

"irrelevant at present".

The ruling referred to the de-

fense contention that communist

anti-Japanese agitation compelled

Japan to act "defensively".

The court said that individual de-

fendants may later testify, if they

so wish, that their military moves

**Local Red Cross Worker Arrives In Tokyo, Japan**  
Virginia Cartwright, Disembarking At Yokohama, Greeted By Local Resident  
When Miss Virginia Cartwright, of this city, who sailed March 21 aboard the S. S. Ainesworth for Japan as a Red Cross field worker, landed in Yokohama earlier this month, she was greeted at the boat by Cpl. Fred C. Duff, Jr., also of New Castle who is stationed at headquarters of the fourth replacement depot in Japan.  
Cpl. Duff escorted Miss Cartwright, a former next door neighbor and longtime acquaintance on her first tour around Tokyo.  
Also just recently Cpl. Duff encountered another acquaintance from here, Charles Duff, Jr., of North Mercer street who is stationed in Japan with an airborne division. They met by chance in the PX in Tokyo.  
Miss Cartwright, daughter of Mr. and Mrs. J. W. Cartwright, of Sumner avenue, made a two weeks visit in New Castle before leaving for Japan. Previous to that she was with the Red Cross in the Philippines for a number of months.  
Cpl. Duff is the son of Mr. and Mrs. Fred C. Duff, of 433 Sheridan avenue.  
**State Industry Sets New Record In March Output**  
STATE COLLEGE, Pa., April 29.—(INS)—New peacetime records for Pennsylvania industry during March were claimed today by the business research bureau at Pennsylvania State College.  
Industrial activity during the month increased 18 per cent during March compared with the same month last year, the bureau reported. Last month's industrial level was two per cent above February averages, it added, while activity for the initial quarter of 1946 was up 20 per cent.  
The index was based on coal production, employe hours in manufacturing and power sales.

**Homemakers Are In Session Today**  
Women Of Farm Communities Have Spring Meeting At Epworth Church To Plan Program  
Lawrence County Homemakers, those women of the various rural communities of the county, are in session at Epworth church today, making plans for a busy summer season.  
The speakers are Miss Sarah Warren, assistant nutrition specialist, of Penn State college and Judge W. Walter Braham.  
The morning session convened at 10:30 o'clock, and following luncheon, the program continued over into the afternoon.  
Assisting Miss Emmeline Mohlman, new Home Economics Extension Worker here, with the plans for the meeting have been; Mrs. Fred Taylor, of Pulaski; Mrs. C. E. Campbell, of Mahoning township; Mrs. Seth Neely, of Plainsboro; and Mrs. Dale McCurley, of North Beaver township, members of the Executive committee of the Lawrence County Agricultural Extension Association.  
**Report Paraguay Minister Of War Killed By Rebels**  
BUENOS AIRES, April 29.—(INS)—A correspondent on the Argentine-Paraguayan border reported today that Paraguay's War Minister Ramundo Markfo was assassinated by insurgent Partisans.  
His dispatch to the noticas graficas also said that Col. Frederico Smith, commander of the Loyalist army, fled from Asuncion, where government troops are reported to be waging a battle against revolutionary forces.  
Direct communication with Asuncion was cut yesterday following the revolt of naval units in the city.  
**Guard Young Man Who Shot Himself, Threatened Leap**  
CHICAGO, April 29.—(INS)—Two policemen today guarded the hospital room of a bored young Chicago man who shot himself and threatened to leap from a third floor window ledge.  
From his bed, 24-year-old Sam Panelli claimed he only wanted to create some excitement last night because he was tired of living.  
He added that he was only fooling when he threatened to jump and to shoot anyone who tried to stop him.  
His mother and sister, hundreds of neighbors, 50 policemen and several firemen stood watching him as he swayed on the sill and brandished a .22 caliber rifle.  
He was rescued when two detectives broke into his apartment while a third officer held him on the ledge with a 12-foot fireman's pike.  
Cook County hospital physicians said Panelli's condition was "not serious".  
**William B. Wright Dies At Greenville**

**NEW CASTLE TELEPHONE OPERATORS ARE NOT ON STRIKE**  
The Union which represents our operators is not on strike. Its contract with the Company does not expire until July 16.  
The only Union of the employees of the Company whose leaders have called a strike is that of the Plant employees.  
New Castle operators who are reporting for duty are faithfully discharging their responsibility to the public—to furnish the service on which may depend human life and safety.  
The public they serve is appreciative of their devotion to duty and applauds them for it. It recognizes that the operators are not doing, and cannot do, any of the work of the linemen, cable splicers, installers and other Plant people who are on strike—that their reporting for duty is not an attempt to "break" that strike.  
In the state as a whole, 10,500 operators are working. Four out of five of all Bell Telephone operators are reporting for duty. They are demonstrating that spirit of service which is traditional in the telephone business.

**Business Man Is Killed In Crash Of Private Plane**  
NEEDHAM, Mass., April 29.—(INS)—Arrangements were being completed today for the funeral Thursday in Pittsburgh of Howard W. Phillips, 42, prominent Boston businessman, killed when his private plane crashed against a mountain near Petersburg, N.Y., in a rainstorm.  
Phillips was production superintendent of the Walworth Manufacturing Company. He was alone in the plane and was returning from St. Louis where he had been visiting his wife.  
**Move To Prevent Stream Pollution**  
HARRISBURG, April 29.—(INS)—Industrialists were warned today by the state sanitary water board they would be held responsible for the "proper disposal" of wastes which could pollute streams after firms had ceased operations.  
The board explained that serious stream pollution problems may arise if proper provision was not made by former owners to dispose of wastes accumulated before the plants closed.  
Plants operators were warned by the board to take "every precaution" during remodeling operations to prevent wastes from entering waterways.

**Excavate Ruins Of Old Temple In North Palestine**  
JERUSALEM, April 29.—(INS)—The remains of a stone building believed to be a four-thousand-year-old Canaanite temple was being excavated today by archaeologists at Nahariya in the northwestern corner of Palestine.  
The belief was expressed that the building may have been used as a fort by the Hyksos, the alien rulers of Egypt prior to the 17th century B. C.

**Idle Cab Drivers To Vote On Offer**  
PITTSBURGH, April 29.—(INS)—Nine hundred idle drivers of the Yellow Cab company of Pittsburgh will vote Thursday on a company wage offer raising their fare commission rate and guaranteeing them a minimum daily wage.  
Acceptance of the company offer by the drivers was expected to speed settlement of the strike of 55 mechanics which has halted all taxi service for 19 days. The drivers, although not on strike, have refused to cross mechanics picket lines.  
The new company offer to drivers, it was reported, would award them 45 per cent of meter receipts, or a minimum daily wage of \$4 which ever is greater. The drivers originally demanded 50 per cent of meter receipts and a minimum wage of \$10 daily.  
The mechanics union seeks \$60 for a 40-hour week.

**ACTRESS FOUND GUILTY BY JURY OF MISCONDUCT**  
NEW YORK, April 29.—(INS)—Blonde Actress Virginia Copeland Gahagan was judged guilty today of this conduct with Jacques Negrier, a French importer. A jury in supreme court deliberated seven hours and 10 minutes before returning the verdict.  
The verdict paves the way for her husband, Andrew Jesse Gahagan, an advertising executive to institute proceedings for divorce.  
Witnesses testified that Virginia and Jacques were unclothed when they raided Virginia's apartment in Greenwich Village. Virginia claimed that she was taking a bath and said that Jacques was ill from too many cocktails. She said her sister was in the apartment at the time.  
**FALL OF ROCK FATAL TO MINER**  
INDIANA Pa., April 29.—(INS)—Dr. E. L. Fleming, Indiana County coroner, reported today that Karol John Dudek, 54, of Rossiter, Pa., was killed yesterday under a rock fall in the Clark Mining Company's pit near Glen Campbell.  
Dr. Fleming said Dudek died instantly of a crushed chest when trapped under four tons of rock.

## McGILL SOCIETY

### APRIL SESSION

McGill Missionary of Highland U. P. church was received in the home of Miss Gertrude Graham, Fairmont avenue, Monday evening, when Mrs. Howard Boalick entertained jointly.

Stressing "Evangelism" as topic for the new year, Mrs. Lloyd McCormick was devotional leader. Mrs. William Headings was responsible for the program. Mrs. Arthur Alexander discussed "Facing the Facts" while Mrs. Robert Mills' subject was "Solving the Problems of the Home".

Mrs. Henry Brennenman, president, appointed Mrs. Howard Boalick chairman of the social committee. Mrs. Arthur Canning chairman of the membership committee and Mrs. William Headings program chairman.

The new books will be sent to Rev. Willis McGill, foreign representative of Highland congregation in Cairo, Egypt. This gift is part of the society's special project.

Tempting refreshments were served later by Miss Graham and Mrs. Boalick.

Mrs. Lloyd McCormick, Delaware avenue, will be hostess at her home Monday evening, May 26.

## WORD OF WEDDING

### IN MIAMI, FLA.

Announcements have been received here of the marriage of Miss Susan Goldberg, daughter of Mr. and Mrs. Harry Goldberg, of 6901 Lincoln road, Philadelphia, to Forrest B. Raffel, son of Mr. and Mrs. J. E. Raffel, of the Leslie Hotel, this city, in Miami, Fla. on Saturday, April 26.

After a honeymoon in Havana the couple will reside at Magnolia, Mass., where Mr. Raffel is assistant manager at the Oceanside Hotel.

Mr. and Mrs. J. E. Raffel are now in Florida where they went to attend the wedding.

## PARTY OBSERVES

### SILVER WEDDING

Mr. and Mrs. James S. Snow, Becker street, celebrated their twenty-fifth wedding anniversary Saturday evening, when relatives and friends were entertained at their home. Their daughters, Mrs. Ralph Heckathorn, Jr., and Miss Marjorie Snow, were hostesses for the event.

Music was enjoyed during the evening. The home was prettily decorated with spring flowers. A buffet lunch was served from a beautifully appointed table, arranged with silver and glass, and a pastel color scheme. Mr. and Mrs. Snow cut the silver and white tiered wedding cake in traditional manner. Mrs. Howard McQuiston and Miss June Rodgers were aides.

The honored couple received many attractive remembrances of the day, including a chest of silver from their children.

Mr. and Mrs. Ralph Perkins, Mr. and Mrs. Walter Grapentine, Mr. and Mrs. Raymond Stevens, Mr. and Mrs. Norman Meredith, Virginia Stevens and Jack Malley, all of Youngstown, O., and Mr. and Mrs. Herbert Snow, East Liverpool, O., were out-of-town guests.

The former Miss Margaret Perkins became the bride of James S. Snow at a ceremony performed April 24, 1922, in Youngstown. Mr. and Mrs. Snow are parents of four children, Mrs. Ralph Heckathorn, Jr., this city; Seaman James Snow, Jr., stationed with the navy at New London, Conn., and Marjorie and Richard Snow, both at home.

## GRAZIANI-FENATI WEDDING SATURDAY

Miss Jean M. Graziani, daughter of Mr. and Mrs. Alfred Graziani, 1061 Butler avenue, has chosen Saturday, May 3, for her marriage to George Fenati, son of Mr. John Fenati, 819 Morton street.

The "open church" ceremony will be solemnized at 9 a. m. in St. Vitus church with Rev. Fr. N. DeMita officiating.

Miss Lucille Bero, of Youngstown, will be maid of honor; and bridesmaids will be Miss Sylvia Graziana and Miss Flora DeLuca.

Edward Liverani will serve as best man. Ushers will be Mr. Fred Graziani and Mr. Arthur Apicelli. An evening reception will be held at the Morton street hall.

Junior Commandos Bible class of the Wesleyan Methodist church, met on a recent evening, at the home of Leland Barker, King avenue. The president, Harry Kennedy, presided.

Games and other diversions kept the boys busy during the evening. Refreshments were served at the close of the evening.

On May 30, the class will meet at the home of Harry Kennedy, Waldo street.

Wednesday

## READING CIRCLE '91

### PROGRAM MONDAY

For its bi-weekly program the Reading Circle '91 met Monday afternoon at 2:30 in the rose room of the Y. W. C. A. when during business, with Dr. Dale Coulter Caldwell presiding, two new members were voted into the club.

Roll call answer was "New Legislation".

Featured on the program were two papers, both interestingly prepared and presented: one titled "Teen Age Bill of Rights" prepared by Mrs. W. J. Marshall was read by Mrs. E. L. Davenport and the other "Rehabilitation of the Young Veterans" was given by Miss Iretta V. Dart.

During business, reports were given by representatives of the circle who attended the Lawrence County Federation of Women's clubs spring meeting April 15 in the First Methodist church.

Year books for the coming year were given out.

Next meeting will be May 12 at the Y. W. C. A. with Mrs. Frank Hanna as hostess.

### Home Levelled In Mt. Lebanon By Violent Blast

PITTSBURGH, April 28.—(INS)—A man and his wife were injured today when their home in suburban Mt. Lebanon was leveled by a violent pre-dawn explosion.

Mr. and Mrs. Lawrence A. Wunderlich were treated at Shadyside Hospital for cuts, bruises and burns on the face and arms.

Fire Chief James Wood, of Mt. Lebanon, said the Wunderlich home was reduced to a pile of rubble. He estimated damage at \$12,000.

The blast shattered windows within a half-mile radius and blew out doors and cracked plaster in nearby homes.

Wunderlich told police he awakened his wife about 5 a. m. when he smelled gas. He said they had just started out the door when the two-story brick house disintegrated.

The first edition of "Barlett's Familiar Quotations" was a small, thin octavo consisting of 295 pages. It was published in London in 1855. Asbestos cloth was found by Marco Polo being used in Siberia when he traveled there in 1250 A.D.

### THE PARENT PROBLEM

(Continued from Page Four)

ing things for hours in our home over a long period of years.

It's no use to command your child of five or fifteen not to swear or speak obscenely in your absence. But now and then, at lovely moments with him, a quiet request that he watch his language away from home can be very effective.

**In The Grades.**  
At school, certainly in the grades, one or more teachers should be among the children on the playground, not to spy on their speech, but to set an atmosphere of dignity. Bus drivers should be empowered with authority and charged with responsibility of permitting no vile language on the school bus.

Teachers who have the gift of winning the deep esteem of their children can be very powerful with occasional quiet appeals to their pupils to speak in ways they know are proper.

Whether in school, Sunday school, meeting of Cubs, Brownies, Scouts and the like, I don't believe that ranting about vile language being naughty nets much good. But if the leader is greatly esteemed by the children he or she may help them to see that when they use language in secret which they would not use

in the family or with other persons they like, they may have disturbing feelings and not be able to be always entirely happy over their own ways; that obscene language implies disrespect for the loveliest persons they know; that it just doesn't belong to the ways of speech among persons they look up to and love.

### Remove Bodies Of Two Fliers From Bald Knob

LIGONIER, Pa., April 29.—(INS)—Rugged Bald Knob—in "The Graveyard of the Alleghenies"—today had claimed two more lives in an air crash.

The bodies of Pilot Robert H. Holben, 32, (923 41st St.) Baltimore, Md., and J. J. Morgenstern, 32, 1836 Euclid Ave., Cleveland, O., were brought down from the wild mountain area last night.

Police said their four-passenger private plane crashed and burned later Sunday in a rain storm and heavy fog over the Alleghenies. The smashed plane and its victims were discovered late yesterday by Emil Lamquist, a forester, as he walked along the mountain trail to his home.

Police said the men, who had left Baltimore enroute to Cleveland Sunday, apparently had been flying low and cut a wide swath through the tree tops.

### WASHINGTON CALLING

(Continued from Page Four)

our own ambassador to Buenos Aires, George S. Messersmith, who has consistently opposed the Braden policy.

Peron is moving in a direction that cuts right across American plans for a world trade organization based on the more or less free exchange of goods and services. He is using state controls over industry and agriculture to build up vast reserves of cash to further his own arrogant adventure in super-nationalism.

#### Way It Works

This is the way it works. A government agency buys up linseed oil from the producers at one price, and another government agency sells it on the world market for twice that much. It was not for nothing that Peron studied at first hand the techniques of Italian fascism.

He is said to be encouraging Chile to exercise the same kind of controls over Chilean copper. This would be of immediate concern to the United States, since there are large North American interests in Chilean copper companies.

The new argument in behalf of Peron is that he has now slammed the door in Russia's face. Evidence for that is seen in the abrupt departure of the Soviet trade mission after they had obviously failed to win friends and influence people in the Argentine.

This is a specious argument. Over the long pull, when the present seller's market ends, Argentina can scarcely expect to profit from trade with the Soviet Union. They both produce for export very much the same commodities.

#### Can't Get It From USSR

Peron cannot get from the USSR, in any foreseeable time, the armaments, the industrial machines and the planes that he wants. They can come in quantity only from this country. That gives us most of the bargaining power.

Argentina's dictator has taken important steps to comply with the stipulations laid down at the conference of Chapultepec. But Nazi agents are still operating with more or less complete freedom in Argentina, although one of the principal requirements was to round up the men who had plotted and schemed throughout the war behind the protection of Argentina's bogus neutrality.

Many who have studied Peron's speech of June 10, 1944, at the University of La Plata compare it with Mein Kampf. It is almost as naked a declaration of ruthless ambitions and objectives for the future.

Since the speech on Greece and Turkey, hints have come from at least two Latin-American nations that they are having communist trouble and would appreciate a little help. Such requests must be carefully screened. We cannot afford to back dictatorship. If our assistance is to mean new life for the democracy of the middle stratum, then to be merely anti-communist will not be enough. Nothing that has happened in the past three months has made Peron eligible for help or encouragement from this country.

### GIVEN SENTENCE IN SHOOTING OF WIFE

PITTSBURGH, April 29.—(INS)—Sixty-year-old Anthony Fumara of Pittsburgh today was under a court sentence of six months to two years in the workhouse after he pleaded guilty to shooting his wife, Frances, last January 3.

Judge Henry Ellenbogen sentenced Fumara after he testified he shot his estranged wife in an argument over money.

### DEVICE PROTECTS FIREMEN EXPOSED TO BURSTING HOSES

CHICAGO, April 29.—(INS)—Northwestern University revealed today development of a new device that will protect firemen from the dangers of bursting hoses.

The invention, called the sealed air chamber, also eliminates vibrations and knocks heard in home and apartment plumbing systems when faucets are turned off.

Lewis H. Kessler, professor of sanitary engineering and Merrill B. Gamet, associate professor of civil engineering developed the device at the university's technological institute.

Iceland's hotel are heated by water from hot springs.

### THE WORLD AND THE MUD PUDDLES

(Continued from Page Four)

are showing signs of it. The Germans in our zone take a dim view of those in other zones. There has been a less effective purge of Nazis in the British zone, still less in the French zone and practically no purge at all in the Russian zone. The Russians, relying on the effectiveness of their military police government, haven't bothered to do much purging on a political basis. They reward all who co-operate and get rid of all who don't, Nazi or non-Nazi.

Dr. Pollock thinks our zone will continue to improve and that our

zone, combined with the British zone, will make a fairly strong nucleus for a new Germany. The French zone is a mystery (it produces most of the German wines and some light manufactures) and the Russian zone is still more so (it is largely agricultural). He believes that if real unification could be achieved for all four zones it might be possible for the German nation to re-establish itself as a fit member of the United Nations in five years. He thinks everything possible should be done to get rid of the present abnormal situation. The British feel much as we do. The Russians and French are blocking every move in that direction now. He doesn't know what to expect, or hope from the Moscow Conference, but agrees that the longer the Big Four stall on getting

Germany back on her feet, the worse for all concerned.

I get all this from Bill Henry, the Washington correspondent for the Los Angeles Times—a very brainy man himself. He has talked with Dr. Pollock and has listened to Dr. Pollock's political speeches on the subject.

### CIRCUS LION CUB CLAWS YOUNG BOY

PARKERSBURG, W. Va., April 29.—(INS)—Police reported today that two-year-old Michael Higgs suffered scratches and bites on both legs when a circus lion cub escaped from its cage at the Parkersburg show grounds and clawed him.

## Value Of Flood Control Dam Is Under Debate

WARREN, Pa., April 29.—The Upper Allegheny Valley River Improvement association said today that its own survey of damages caused by the Easter flood in this area "specifically discounted" the value of the proposed \$47,000,000 flood control reservoir at Kinzua, 10 miles north of here.

"Super dams will not solve the flood control problems of northwestern Pennsylvania," the association said in a statement. It continued:

"Streams other than the Allegheny river inundated the largest areas. The area inundated in the main valley of the Allegheny river was but a fraction of the 21,000 acres which would be continuously buried under the 366,000,000 gallons of water by the proposed superdam at Kinzua."

The association, which is opposing the proposed reservoir because it would bar future canalization of the Allegheny above that point, said its survey points to the following flood control needs in northwestern Pennsylvania:

Reforestation, soil conservation practices, check dams on all small streams and in small valleys, with a fast water run-off and engineering changes in the channels of the Tunungwant (Tuna) creek at Bradford, and the confluence of the Conewango creek and Allegheny river at Warren.

The Pittsburgh district Army en-

gineers estimated the Easter flood caused \$4,500,000 damage in northwestern Pennsylvania and south-western New York, and claimed the loss would have been largely prevented had flood control projects, now in the report and planning state, been available.

The engineers said these projects include, in addition to the Allegheny reservoir, a single reservoir, or a series of reservoirs for French creek; channel projects at Bradford and the Chadakoin river at Jamestown, N. Y.; and a dike at Portville, N. Y.

## Russian Press Silent On Report Made By Marshall

MOSCOW, April 29.—(INS)—The Russian press failed to publish a single line today on U. S. Secretary of State Marshall's radio report to the American people on the Moscow conference.

Soviet newspapers made no mention even of the fact that he gave the report.

It is believed, however, that an account of the talk will be published tomorrow.

Russians who listen to the voice of America broadcast learned last night that a text of Marshall's speech would be included in today's program.

## KOREAN WOMAN HAS QUADRUPLETS

## Veterans Guidance Center In City Plans Expansion

Pennsylvania State College Veterans Guidance Center in the Lawrence Savings and Trust Building is expanding operations to include personnel service to business and industry. This announcement was recently made by Stanley B. Kraus, Director of the guidance center and a member of the Psychology Department of The Pennsylvania State College.

When the center opened in June, 1946, it was set up to give vocational guidance service to veterans. Since then about one thousand veterans have been processed. Vocational guidance consists chiefly of counseling based on the results of scientific testing and occupational educational information.

Some of these veterans, including the disabled, are now in colleges and universities in pursuit of professional objectives; some are in grade schools in training for skilled trades; some are in business schools in preparation for sales and clerical work; and some are training on the job for a variety of occupations ranging from general farming to retail store management.

Helps Non-Veterans Also

Non-veterans have also availed themselves for this service. In one instance, one third of the graduating class from a nearby consolidated high school were given vocational guidance. They wanted to learn the type of work for which they were best suited, and how they could best prepare themselves. One was advised to attend college to study for school teaching, one was guided into specialized education for dairy farming, and another was advised to attend a trade school for farm-equipment mechanics. All were given a specific plan of action.

## Closing Meeting At Arena Held Monday

Audience Of 2500 People Packs Downtown Meeting Place To Hear Musical Program

Closing night of the Indoor Camp Meeting at the Arena, Monday evening, drew the largest attendance in the series, when approximately 2,500 people packed the downtown building to hear the famous Cleveland Colored Quintet present an all-musical program.

Directing the program of music was Floyd Lacy, of the quintet, who introduced the members of the quintet and the other members of the party participated in the program. Opening with a song-fest participated in by the audience, the quintet followed up with several of their old time favorites much to the delight of the listeners.

## Give Testimony

As the program proceeded, various members of the quintet gave a personal testimony of how he became engaged in his present work. It was revealed that the men have been singing together for the past 27 years, 25 of which have been on the road. Only once in the entire time, has one member been missing during an engagement.

During Monday evening's meeting, Rev. J. C. Murphy, president of the Lawrence County Holiness Association, which sponsored the "camp meeting", spoke briefly. Rev. Murphy closed his ministry in the city last Sunday, prior to accepting a pastorate at Akron, Ohio.

It is revealed that the entire budget of the campaign of \$1,400 was met on Saturday evening. The meetings will be followed up next Tuesday evening by the monthly meeting of the Lawrence County Holiness Association in the Dewey avenue Free Methodist church.

## DUTCH UNDERGROUND MEMBER SEARCHING FOR AMERICAN FLIER

DENVER, April 29.—(INS)—William F. Dufuow, a member of the Dutch underground during the war, was in Denver today searching for an American airman whom he helped to escape from the Netherlands in 1943.

Refuow described the airman as "a tremendous, big guy," who parachuted into Holland. The underground directed him and two companions to the Belgian border.

Refuow said he had few clues to the man's whereabouts, he said he knew the airman was a gunner-mechanic, lived in the mountains 35 miles from Denver and ran a filling station before the war.

## DUFF USES VETO POWER FIRST TIME

HARRISBURG, April 29.—(INS)—Gov. James H. Duff today had exercised his veto power for the first time during the 1947 legislative session.

He rejected a bill which would have removed restrictions barring Philadelphia magistrates from participating in political activities. The measure was sponsored by Rep. Nate Simons (R) Philadelphia.

Duff said it would have been "a backward step" to remove the restrictions.

## SUES GOVERNMENT IN TRUCK ACCIDENT

PITTSBURGH, April 29.—(INS)—Mr. and Mrs. Edward Herrie of Pittsburgh today asked damages against the government totaling \$15,000 as the result of an accident allegedly involving a mail truck.

Mrs. Herrie, 39, in a suit filed in federal court, alleged that she was struck by a mail truck last December 5. She asked \$10,000 damages for herself and \$5,000 for her husband.

## Moscow Radio Voices Confidence On Treaty Pacts

LONDON, April 29.—(INS)—The Moscow radio voiced confidence today that the unsolved problems of the German and Austrian treaties will be solved "ultimately and satisfactorily."

Radio Moscow, quoting the Soviet Communist newspaper Pravda, said: "It can be boldly asserted that the Moscow session of the big four foreign ministers council laid the foundation for a solution to the German problem."

Pravda said that the "disappointing results" in the demilitarization of Germany's western zones are a "direct consequence of the failure to put the Potsdam decisions into practice." The newspaper added:

"It is necessary to note that all attempts to revise the Crimea and Potsdam decisions—such attempts repeatedly made by the American and British delegations—remained unsuccessful."

Pravda said that "undoubtedly there are not a few difficulties ahead."

"However, by observing the methods of international cooperation which have been tested and proven in practice it is fully possible to work out agreed decisions which would lead to a solution of the German problem in a spirit meeting the interests for peace and security of the nations."

## Supreme Court Refuses To Make Decision In Case

WASHINGTON, April 29.—(INS)—The supreme court refused to decide whether the Japanese sneak attack on Pearl Harbor was legally the beginning of a state of war between the United States and Japan. The question arose in the interpretation of an insurance policy on the life of Capt. Mervyn S. Bennion, skipper of the West Virginia, who was one of the first casualties of the Dec. 7, 1941, attack.

The \$10,000 policy issued by the New York Life Insurance Co., provided for double indemnity for death from injury unless the injury resulted from war.

The tenth circuit court of appeals ruled that Bennion's heirs were entitled only to the face value of the policy since he was killed in the war. The heirs based their appeal to the high court on the ground that the state of war did not officially begin until the joint resolution of congress declaring a state of war to exist at 4:10 p. m. on Dec. 8, 1941.

Tung nut production in the United States increased from less than one ton in 1924 to 47,300 tons in 1946.

## Inquiry Service To Be Resumed By American Red Cross

War-time Function Will Be Started Again To Locate Persons In Foreign Lands

American Red Cross will resume the service carried on during the war with respect to the location of persons in foreign countries on behalf of inquirers in this nation. Chapters have been receiving an increasing volume of inquiries originating in foreign lands, sent by Red Cross societies in these countries. The carrying out of this service is not new to chapters which handled thousands of such cases during the war years.

Don't Guarantee Results It cannot be impressed too strongly upon those interested in this service that the Red Cross in undertaking it cannot guarantee results. The dislocation of persons in most countries affected by the war is well-known to everyone. Much has already been done by

refugee agencies in this and other countries to locate persons who were out of touch with their relatives and friends. The Red Cross does not want to create the impression that it can better the service which is already in effect.

Index System In Use In this connection it should be known that according to the latest information, the Central Location Index will continue indefinitely to handle inquiries about displaced persons but will refer to the Red Cross all inquiries received through other national Red Cross societies whether or not they are concerned with displaced persons. The following agencies have agreed to continue their association with the Index system until further notice: American Christian Committee for Refugees, Inc., American Friends Service Committee, HIAS (Hebrew Sheltering and Immigrant Aid Service), International Migration Service, United Service for New Americans, Canadian Location Service, American Federation of International Institutes, and the American Jewish Joint Distribution Committee, Inc.

Full information concerning this service, and the forms to be accomplished, can be obtained at the Red Cross chapter house, Home Service Committee, North Beaver street.

## Pre-Fabricated House On Exhibit By Andrews Co.

Only Plant Making Such Homes In County Opens Display Today At Bessemer

Only pre-fabricated house manufactured in Lawrence County is on display today at the M. Dale Andrews Lumber Industries, Inc., plant at Bessemer.

In announcing the sale of these new houses, the company explained that the home is a two-bedroom structure, with living room and kitchen.

The industry was planned here before the war but was delayed due to the hostilities and has now resumed on a large scale to meet the needs of home buyers. Extensive studies were made at other pre-fabricating manufacturing plants in many sections of the country and no detail was overlooked to make the best house possible under the price range.

In announcing the sale of these houses it was pointed out that the buyer saves money since the entire building is made locally and parts do not have to be shipped from other cities for completion.

## Presents Plans For Sewer Project

Council Studies Specifications For New Sewer In Seventh Ward Location

### OTHER NEWS OF COUNCIL SESSION

When council convened Monday in the city building, there was presented by City Engineer John Z. Street for council consideration, plans and specifications for the Seventh Ward Sanitary Relief Sewer, bids for which recently were rejected.

According to the new plans, the sewer will run from the B. & O. R. overhead bridge along the west side of the Shenango river to a point above the Mahoning avenue viaduct.

The plans and specifications call for reinforced concrete pipe, the size being as follows: 652 feet of 48 inch pipe, 425 feet of 30 inch pipe and 6,020 feet of 36 inch pipe.

Mr. Street procured sanction from council to personally communicate with engineers for the B. & O. and P. & L. E. railroads, because they may, at some future time, desire to build a track over the sewer line. Council is studying the plans and specifications before an order asking for bids is given.

**Arbitrary And Capricious**  
Leslie M. Pinney, 507 East Winter avenue, in a communication to council, relative to their recent action in closing the Locust street dump, because of smoke and paper debris littering the neighborhood, termed the action "arbitrary and capricious." He maintained that the action caused an increase in the cost of ash removal.

He wrote: "In my opinion this act on your part, was arbitrary and capricious and not in the best interests of the majority of taxpayers." He maintained that, where as it formerly cost 30 cents to have ashes removed, it now costs 50 cents, and individuals who wish to dispose of their own are required to travel several miles to Cascade street dump.

"To my way of thinking you prescribed a major operation for a pa-

tient which needed only local treatment with inevitable results," after which he suggested that the council have city employees clean up the paper which blows around and when a fire causes smoke, have the fire department extinguish the fire.

He wrote the city should either provide ash and rubbish collection or encourage and grant an exclusive license to a reliable firm on a contract basis with individual patrons. Mr. Pinney referred to the collection system in Pittsburgh which caused Safety Director D. O. Davies to point out that "individuals are now cleaning up Pittsburgh."

The letter was filed. The city closed the dump recently because of the smoke being an annoyance to Jameson Memorial hospital and because the territory adjacent to the dump was literally covered with paper which blew from the dump on windy days.

**Other Matters**  
Deal between Dave Tobin and the city of New Castle for the purchase for \$3,665 of the three old cars was consummated in city council.

City Engineer John Z. Street certified to council that Matthew Leivo Sons company was entitled to estimate five payment, amounting to \$6,966.36 for work at the disposal plant. The bill was ordered paid.

Petition was received from residents of Court street extension. In it they asked for construction of a sanitary sewer. Councilman James Gibson pointed out that it would run about 2,000 feet through rock and it would cost abutting property owners about \$5 a foot. However, council decided the engineer should check the problem.

Council authorized payment of \$92.46, the commission earned by Paul Marakas for the collection of delinquent city taxes.

There was ordered paid \$4,134 due the Duncan Meter corporation for the new parking meters of which there are 424 installed in the city, and which are being paid for on the installment plan.

**Opposes Garage Erection**  
Wayne Cannon was granted councilmanic sanction to sand the cornices and stone base bottom of the Henry hotel.

Council ordered referred to the legal department a request by the GNCA, trustee for property on the Seiberling site, seventh ward, for exemption of city taxes amounting to \$265.20.

Ulderico Leocoldi, 501 East Linton street, complained of the erection of a garage by Daniel Chiarini, 513 East Linton street. Leocoldi said he intends to build and the garage would be at his front door. Work was ordered stopped, pending an investigation by council to determine if the zoning law is being violated.

## Press Search For Ex-Convict, Wife In Midwest

TOLEDO, O., April 29.—(INS)—Police in the lower Michigan and Chicago area pressed their hunt today for an escaped convict and his wife, both charged with first-degree murder in the death of four-year-old James Lester Gleason of Toledo.

The couple, Mr. and Mrs. Harold Lehaney, both 41, fled Toledo in their automobile last Thursday when the boy was found dead in his crib by his war-widowed mother, Virginia, 26. The Lehanays made their home in the same house as the Gleasons.

Lucas County Prosecutor Joel Rhinefort, who ordered the murder warrant issued, said he might also order the exhumation of James Lester's two-year-old brother's body to determine cause of his death, originally attributed to meningitis. Coroner Paul Holly asserted that a study of laboratory reports indicated that the brother, Gerald, may have died from complications resulting from an abscess on his head, "obviously caused by a blow."

Capt. Ralph Murphy, head of the Toledo police homicide squad, said relatives of the Lehaney family had confirmed reports that Wilma, a 16-year-old daughter of Lehaney, had witnessed the beating of Gerald and that her life had been threatened because of that fact.

## Vegetables Rot On London Docks As Strike Goes On

LONDON, April 29.—(INS)—Mountains of perishable vegetables lay rotting on London docks today as thousands of stevedores ignored a ministry of labor plea to end their strike.

The spoiling food included thousands of tons of tomatoes and 23 thousand stalks of bananas, which have been practically unknown in England since the war.

The situation was highly confused. Some of the strikers who left the job yesterday returned to work. Others who worked yesterday struck today after becoming convinced that the laying off of several hundred Glasgow dockworkers might set a precedent endangering their own livelihood.

From Towerbridge to Tilbury 80 large vessels lay idle with valuable cargoes aboard. Unloading was being carried on, however, on other ships at the Thames side dock areas.

# NEED A HOME?

... then here's

## Our Answer to Your Housing Problem

- Developed for the Purpose of Supplying Your Immediate Needs in Housing . . .
- Proposed to Furnish Adequate Living Quarters With Amazing Flexibility for Future Development . . .

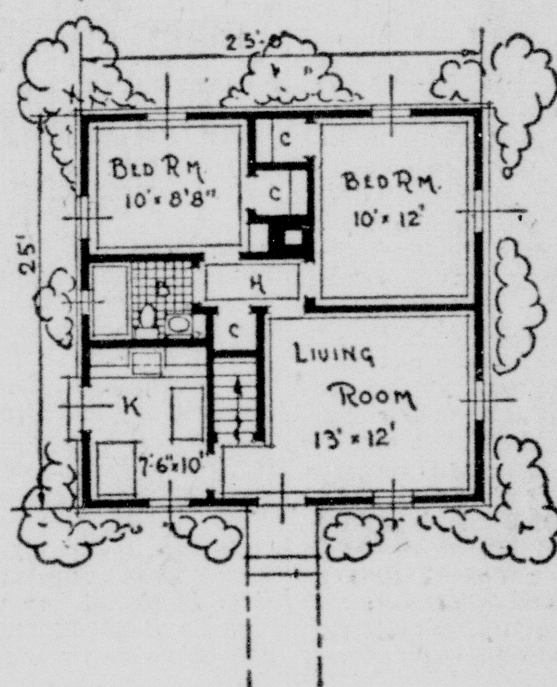

The prefabricated home shown above is approved by and built according to Federal Housing Administration standards. The framing is all full sized and spaced 16" on centers in comparison to the average prefabricated house built with under-sized dimension lumber spaced farther apart.

You build the foundation from our specifications and from that point on our material will be delivered cut and pre-fit for the first floor. The walls—exterior and interior are all prefabricated so that they can be set-up in sections. The roof rafters and ceiling pieces are pre-cut, fitted ready for erection.

The flooring, siding and roofing sheathing will not be prefabricated but will be delivered as needed and can be more economically cut and installed on the job.

Because flooring and good weatherboarding are not available at present except at prohibitive prices, we are proposing to furnish for flooring a No. 2 and better grade Yellow Pine which can be used as sub-floor after better flooring becomes available. For the side walls we propose Celotex Siding made in the form of large sheets of Celotex, asphalt treated and coated with granules in colors. This material can be used for the time being as both wall sheathing and siding. Roofing will be done in a permanent manner using a good grade of Yellow Pine boards covered with 210-lb. composition shingles in colors.

This house is the only one of its type on the market, being prefabricated and put together in the manner of a custom built house. The panels are not rectangular and bolted or nailed together in the usual fashion for prefabricated houses, but are over-lapping, making a rigid storm-proof structure

We are cooperating with the President's Plan by offering this home at a REDUCED PRICE.

that will not sag, sway or move in any direction. Corners are all braced and tied together in a manner that will resist all elements.

We are able to offer this house at a price much lower than any of our competitors because we have our own concentration yard from which all materials can be supplied, paying no profits to other distribution sources. There is only one freight bill to be paid and that is from the material manufacturer's plant to our yard. Our plant is so located and equipped that we are able to prefabricate and manufacture a complete assembly in a very efficient manner. The material is then delivered to your building site by our trucks, not in one large heap but in quantities useable for each stage of construction.

Simplifying the erection of this house we have set up a full size working model at our plant for your inspection. We furnish detailed blueprints to be used on the job. We have a supervisor that can be called to your project for advice and assistance. This system makes it possible for you to build the house without the aid of any skilled mechanics.

Financing this home is a very simple matter. Any local bank or building and loan association will cooperate. We will furnish plans that you will submit to either one for the approval of the Federal Housing Administration or the Veterans' Administration. Straight bank loans will also be made available.

In conclusion, we know our proposition offers far more for your money, put up in a better package than any other contribution to the housing shortage. **WE HAVE WITHHELD THIS ANNOUNCEMENT UNTIL WE WERE SURE.**

## Suicide Letter Of Chicago Man Bares Swindles

Note Left By Real Estate Dealer Considered Confession Of Huge Frauds

CHICAGO, April 29.—(INS)—A suicide note left by a dapper Chicago real estate dealer was considered by authorities today as a confession of swindles which netted him an estimated \$200,000.

The note was found in the pocket of 63-year-old Marion H. Bissell by detectives who forced their way into his apartment.

As the officer knocked down a rear door yesterday they heard a shot. In the bathroom they found Bissell's body and his sobbing wife.

Mrs. Wilma Bissell, 62, told the officers that her husband had called her into the room and told her to face the wall and pray. Then he shot himself through the right temple with a .32 caliber revolver.

Assistant State's Attorney Clement Oddy and Abbey Blattberg said they considered the note an admission

of Bissell's guilt in his involved real estate dealings. Bissell, a flamboyant figure who sported flowing bow ties, a Van Dyke beard, and pearl spats, was under indictment for operating a confidence game.

The state's attorney's office had received complaints from 130 persons who claimed Bissell tricked them out of \$104,462.

Bissell's suicide ended a seven-week search for him. His apartment had been watched by two detectives continuously. They noticed shadows behind the drawn shades yesterday morning and decided to force their way in.

Pvt. Broadbent is the son of Helen S. Broadbent, 515 DuShane street, New Castle.

## Rich Czech Shoe Manufacturer On Trial In Absentia

LONDON, April 29.—(INS)—The Prague radio broadcast that Jan Bata, internationally known Czechoslovak shoe manufacturer, went on trial in absentia today before a military court charged with wartime aid to the Nazis.

Bata, who sought before World War Two to extend his vast shoe manufacturing enterprises to the

United States, was said by the radio to be in Brazil.

He was accused of manufacturing boots for the wehrmacht and other treacherous acts.

Rio De Janeiro, April 29.—Former Czech shoe-king Jan Bata charged today that Czechoslovakia has "revolutionary government" seeking to "destroy all vestiges of free enterprise."

In a telephone interview from his luxurious Sao Paulo estate, Bata termed the Prague court now trying him in absentia as "something beyond common justice."

Bata, who came to Brazil six

years ago, said that he had never been notified that he would be tried as a Nazi collaborator.

**MAY LICENSE JUKE BOXES**  
NEW YORK, April 29.—(INS)—A plan to impose a \$25 yearly license fee was proposed today for all juke boxes in the city.

License Commissioner Benjamin Fielding said there are some 9,000 juke boxes in the city and the fee should produce about \$225,000 annually.

**PLOT MASS BREAK**  
JERUSALEM, April 29.—(INS)—The Palestine government announced today that Jewish prisoners were found to be plotting a mass break from the Jerusalem central prison. Police said the interior walls of the grim prison had been breached, and the outside walls partially penetrated.

## Fire Prevention Award Presented Mansfield, Ohio

Chicago Ranks First In  
Cities Of 500,000 Popula-  
tion And Over In  
Nation

WASHINGTON, April 29—(INS)—The United States Chamber of Commerce grand award for the best overall fire prevention program in any city in the nation went to Mansfield, Ohio.

The central Ohio community, of 40,000 eclipsed all the great cities of America in its safety record.

First place in cities of more than 500,000 population went to Chicago. Arch N. Booth, manager of the U. S. Chamber, presented the grand award to Harry S. Soulen, president of the Mansfield Chamber of Commerce. Booth declared:

"Mansfield reduced its fire losses from a five year average of \$4.62 for each person to 86 cents per person. The fire losses in Mansfield were only 20 per cent of what they had been in the previous five years."

"Mansfield built up a fire department that saved approximately \$157,913 in property losses last year. The water supply of the city is being doubled and Mansfield is drafting a new safety building code."

**Great Cooperation**  
"The judges report that virtually every organized club in Mansfield cooperated and leading business men also took and active part in the work."

Booth in presenting the Chicago award to Leverett S. Lyon noted that "Chicago fought an up-hill battle in fire prevention for a number of years, but in the last two years that work has paid dividends."

Other winners were:  
Cincinnati, Class II, cities from 250,000 to 500,000; Tulsa, Okla., Class III, cities of 100,000 to 250,000; Newton, Mass., Class IV, 50,000 to 100,000; Beatrice, Neb., cities having less than 20,000 population.

Announcement of the fire-prevention awards, sponsored by the National Fire Waste Council, was a feature of the opening day of a four-day conference in Washington on fire reduction and other important domestic issues.

More than 2,500 businessmen from all sections of the country are participating in the discussions conducted at the 35th annual meeting of the U. S. Chamber of Commerce.

The common cabbage is said to be the most productive vegetable, for it has been estimated that an acre of ground will yield a greater weight of green vegetable matter in the shape of cabbage than of any other vegetable.

## Lawrence County Farm, Home News

By Extension Representative,  
Lewis C. Dayton, Agriculturist,  
Miss Emmeline Mehlman,  
Home Economics.

### SAFETY NECESSARY IN USING TRACTOR

The tractor, hailed as a boon for speeding up operations on about one half of Lawrence county's farms, can be a great asset, but only so long as it is operated with care. In 1946 at least two men were killed in tractor accidents in Lawrence county. Several others were severely injured, some of them crippled for life.

Records show that more farm accidents are connected with tractors than any other piece of machinery, and the 1947 tractor accident toll may be high unless the operators exercise care in their operation and are on the alert constantly.

Principal causes of accidents to tractor operators include overturning, falling from or being thrown from the tractor, unguarded power take-off shields, fire and fumes, and improper cranking. Timely servicing of any farm equipment before field work starts reduces field breakdowns and contributes to accident prevention.

The main safety rule for operating tractors in the field is "just good common sense. You can't afford to gamble the loss of a limb or life by operating without the power take-off shields in place. Cranking a tractor while in gear is another dangerous way to start the day's work. Driving tractors too close to the edge of ditches or at high speeds can hurry a trip to the hospital. Jumping off a tractor while it is in motion is another way to invite an accident. Parents really concerned about the welfare of young children will not permit them to ride tractors, or hitch rides on trailing implements."

## Young Filipinos Will Study U. S. Fishing Industry

MANILA, April 29.—(INS)—Twenty young Filipino students, who will study various phases of the fishing industry and fish conservation under the sponsorship of the Philippines government, were en route to the United States today.

They will be given a year's training under the U. S.-Philippines fishery rehabilitation program.

The group, which left by plane yesterday, is the first of 125 to be sent abroad under the agreement recently signed between the United States and the Philippines. Expenses will be borne by the U. S. Government.

### MORAVIA

Women's Missionary society of the Moravia Presbyterian church met at the home of Mrs. John Anderson on Wednesday evening, April 23, when plans were made for a mother and daughter banquet in May, and a father and son banquet in June.

The Moravia Presbyterian church mullball team met in the basement of the church to be organized. The following were elected for the summer: manager, Wilfred C. Gwin; captains, Lloyd Wear, Mac Tindall; treasurer, Robert Brest.

Mrs. Margaret Perry, Mrs. Helen McKinley and Mrs. Tillie Gwin are spending the week-end in Cincinnati, Ohio, at the home of the former pastor of Moravia Presbyterian church, Rev. and Mrs. Bruce Robinson.

Fannie Lee Isaac, who underwent an operation in the New Castle hospital, is getting along as well as can be expected.

Mrs. Tom Perry and Mrs. Walter Perry were visitors in Grove City at the home of the latter's brother, Merle Leslie, who has been ill.

James Murphy, Jr., attended the Future Farmers Convention at Slippery Rock, Thursday and Friday.

Kenneth McConnell has been discharged from the Beaver Valley hospital, Beaver Falls.

### ONLY FOUR CASES

Chief of Police Robert D. Hanna reports that only four cases in which persons under 16 years of age have been out after 11 p. m. have been called to his attention by police reports. Their cases were turned over to ministers for inquiry.

With the addition of Croton and First Methodist teams to the league, a full complement of eight outfits will be in operation. Other teams include First Christians, Third U. P., Second Baptists, Central Presbyterians, First Baptists and Epworth.

All these teams are asked to have representatives at this important meeting prior to the opening of the season.

## French Tennis Stars Victors

CHICAGO, April 29.—(INS)—Two hard-smashing French tennis stars today held a clean sweep over a United States duo after a battle in the University of Chicago field-house.

Jean Borotra, the "Bouncing Basque", led the French attack last night by defeating Earl Coe of Los Angeles, 6-3, 7-5.

Marcel Bernard, the current French singles champ, followed Borotra's triumph by licking Billy Talbot of Wilmington, Del., 7-5, 6-3.

Then a Borotra-Bernard doubles set downed Coe and Talbot 6-3 and 6-4.

## Pirates Release Hurler Lou Tost

## Wright Kayoes Billy Arnold

PHILADELPHIA, April 29.—(INS)—Pittsburgh's Bee Bee Wright placed himself in line today for a match with Ray Robinson by virtue of his fourth-round knockout victory over favored Billy Arnold last night at the Philadelphia Arena.

The 5000 fans, who had expected to see something on the reverse order, were brought to their feet repeatedly as Bee Bee pounded Arnold relentlessly with slashing rights which sent him to the floor three times.

Arnold never did get started—so befuddled was he with Wright's speedy attack. Knocked down for three in the second, Billy took a nine count in the third, and was a mere punching bag for Wright in the fourth round until 2:41 when he was counted out.

No true vipers are found on the American continents.

## Ceiling Prices Lifted By Sweden On Paper Exports

Decision To Aid United States As Demand Here Is Heavy For Paper And Pulp

STOCKHOLM, April 29.—(INS)—The ceiling prices on paper and paper pulp for export have quietly been lifted by the Swedish government. Moreover, as a result of an agreement between the paper and paper pulp industry and the government, a greater share of the products will be channelled into the export trade.

There has been no official announcement as yet regarding the abrupt lifting of ceiling prices but it is expected to be forthcoming shortly.

There has been a terrific demand for Swedish paper and paper pulp, especially from America. Heretofore, Sweden, through home consumption and other regulations, has mostly ignored the foreign demand.

The depleted government holdings in foreign exchange and especially American dollars have changed the outlook entirely. Thus the industry and the government reached a speedy decision. The total production of paper and paper pulp for 1947 will be approximately 1,000,000 tons as compared to 970,000 tons in 1946. On the other hand, the domestic market's share of this production will be only 460,000 tons, or less than 50 per cent, as compared to 530,000 tons in 1946.

**Export Ceiling Off**  
The paper industry will not change prices on deliveries with Sweden, but all ceilings are off on export of paper, paper pulp and pasteboard.

Incidentally, an embargo has been put on paper and paper products from April 2, 1947, in order to safeguard the domestic demand for certain necessary paper articles. Other qualities will be reduced in use on the home market to provide for greater export abroad. These include: wrapping paper by 20 percent; wall paper by 15 percent; magazine paper by 10 percent and newspaper for daily newspaper by eight percent.

In some cases the price for exported paper and paper pulp already has jumped some 15 to 22 percent. It might be greater as soon as the world market is fully informed of the increased amount for export.

The government has made one stipulation with the paper and paper pulp industry, however. Part of the increased price garnered for the products within the industry will be transferred to a foundation. These amounts will be used to offset a possible future fall in the trend of the economic situation inasmuch as it hurts the paper and paper pulp industry. For this purpose the government is to be represented on the Board of the Foundation.

## Stassen Arrives Home From Europe

NEW YORK, April 29.—(INS)—Harold E. Stassen, former governor of Minnesota, arrived at La Guardia field at 1:53 p. m. (EDT) Monday aboard an American Overseas Airlines plane from London.

Stassen, who has just completed a tour of Europe which included a meeting with Premier Joseph Stalin in Moscow, was met by his wife, Esther.

He was accompanied by Jay Cooke, a Philadelphia lawyer, and Robert Matteson, head of his research department.

The thigh bone is the longest and strongest in the human body.

**Around Hollywood**  
By JOHN TODD  
International News Service Staff Correspondent

HOLLYWOOD, April 29.—(INS)—Michael Curtiz has some advice to give the movie makers today.

The academy award winning director thinks Hollywood should concentrate on good light entertainment for the next few months. Said Mike:

"The box office is falling off. We must concentrate on making good entertainment, light stuff. With the unhappy condition in the world today we shouldn't be giving the public a lot of heavy stuff. Let's give them pictures which will take their minds off their worries."

**Follows Own Advice**  
Mike is following his own advice, too. He had planned to make "Victoria Grandiolet," starring Joan Fontaine, as his next independent production at Warners.

"I'm shelving that for the time being," he said. "It's too heavy right now."

Mike's first independent picture, it might be pointed out, was "The Unsuspected," recently completed with Claude Rains, Joan Caulfield, Audrey Totter and a newcomer, Michael North. This one was heavy melodrama.

Mike expects to get a comedy, with music, "Romance On the High

C", before the camera in a month. "It's not a musical comedy," Mike explained, "it's a comedy with five or six good songs. It begins in New York, goes to Havana and then to South America. The music will reflect those places."

**First Class Story**  
"It's a first class story. You'll like it."

Your reporter likes almost anything Mike makes.

There's a good story behind Clark Gable's selection of the book "Command Decision," for his next M-G-M picture.

Adolphe Menjou was reading the book while he and Clark were playing together in "The Hucksters". As he'd read right along Adolphe would periodically ejaculate:

"What a wonderful situation" or "this is great" or some other enthusiastic statement.

After several days of this, Clark began to wonder what it was all about. So he borrowed the book from Adolphe and read it himself.

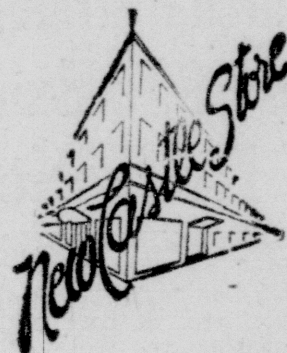

He was just as enthusiastic. After Clark had talked to M-G-M bosses about making the picture, Adolphe went to him and said: "Don't forget there's a good part in there for Menjou."

Your reporter always was under the impression that Menjou, with 150 suits, had the biggest wardrobe in the country.

Now a friend tells us that a gentleman named Bert Trauerman had him beat. Trauerman hasn't anything to do with Hollywood at all. He's a manufacturer's representative for women's hosiery and you-know-whats.

We hear he not only has 160 suits, but 50 sports coats and 90 pairs of slacks. He also has five tuxedos, including a tan one, a maroon one and a light blue one. Besides other accessories, he has 30 pairs of shoes, 300 shirts and 2,500 ties.

The tiny, high-precision ball bearings such as are used in airplane instruments, are sealed in cellophane by a specially designed machine before shipment. Human hands do not touch them; this being a precaution against corrosion on surfaces whose smoothness is checked in millionths of an inch.

## Supreme Court To Review Case

WASHINGTON, April 29.—The supreme court has agreed to review the convictions of 18 members of a Utah polygamous sect charged with conspiring to injure public morals.

The group attacked a Utah supreme court decision upholding their convictions as a violation of the rights of freedom of speech, press, religion and assembly.

## DOUBLE FUNERAL FOR BUTLER PAIR KILLED IN CRASH

BUTLER, Pa., April 29.—(INS)—Double funeral services will be held Thursday in Butler for J. J. Jack and Mrs. Teresa Dunlevy, who were killed when their car crashed into a truck on the Pennsylvania Turnpike near Irwin Sunday night.

Dunlevy, president of the Butler baseball club of the Middle Atlantic League, and his wife were returning from the club's training camp when the accident occurred.

## LEAP FROM SHIP

PARIS, April 29.—(INS)—Six crewmembers of the American freighter Ben Gamlin Hill leaped overboard with an improvised raft today while the vessel was steaming off the Brittany coast.

One of the men, identified as William Davenane, was later rescued but there was no news of the other five.

Davenane, who said he was a native of Canada, explained he did not want to make the trip to Canada but wanted to go to England.

## BILL TO CLOSE BANKS SATURDAY ON WAY TO DUFF

HARRISBURG, April 29.—(INS)—Legislation that would permit Pennsylvania banks to remain closed on Saturdays today was enroute to Gov. James H. Duff.

The senate concurred by a vote of 47-2 on minor amendments inserted by the House. The legislation was co-sponsored by Republican Sens. Bertram G. Frasier and John W. Lord, Jr., both of Philadelphia.
